# Background on Survey and Questions

Need input on what should be priorities implemented to address COVID

Several Considerations when developing the survey and questions

- Looked at other surveys including Instructional facility assessments and Graduate Profile
- CCSD is listening and responding to their needs and wishes for their children
  - Address needs
  - Prioritize funding

What activities would you like to see provided to address learning loss for students due to COVID19?

**Think of students who might have disabilities, or be English Learners, homeless or in foster care.**

What might they need?

What types of resources could  
CCSD provide to students?  
(technology, books, etc.)

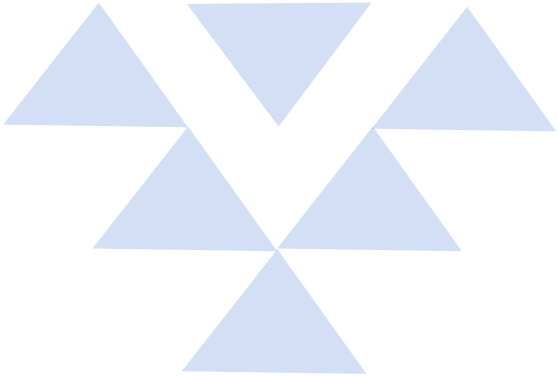

What suggestions do you have  
about creating safe schools in  
CCSD?

What ideas do you have on upgrading  
and improving school facilities?

*Consider how to reduce risk of virus transmission and exposure to  
health hazards*

**The COVID-19 pandemic presents unique and shared challenges for state, local, and tribal governments.**

Do you have any ideas on how these governments could better coordinate support for the CCSD community?
