I have not worked in any other district than Nordonia. I have always been Knight at heart. My door is always open to anyone that needs help. I take such pride in the work I do with my students. I feel proud of my students when they tell me about a sporting event, concert, or play that they did well with and my heart hurts for them when they don't do well with something. I most want my students to know that I am here to support them in any way that I can.
