Dear Parent/Guardian,

ONC BOCES uses SchoolTool for its student management system, which houses schedules, attendance, and grading information for each student. We are pleased to announce that a student/parent portal is available for those who have provided an email address to us. The portal is a password-protected, secure website that offers parents and students online access to information about a student's academic program and progress. Our goal is to provide timely and effective information to students and parents to help students in their educational growth.

The portal allows students and parents to log into ONC BOCES' student data system to review:

- Basic contact information
- Assignment grades (grades 7-12)
- Progress reports (grades 7-12)
- Report cards
- Student attendance and discipline
- Student schedule
- Assessments

Login for Parents

Please note that SchoolTool may only be accessed by those individuals who have a valid email on file with ONC BOCES.

- Go to the district's SchoolTool site (link provided below). Don't forget to bookmark this page.
- On the SchoolTool homepage, type in your username (which is the email we have on file)
- You should have received an email notification with the password for your first login. This is the only time you will use this password. After you login, you will be directed to create a new password that you will use for all future logins.

Login for Students

Students use the same username and password used in school.

For Parents: Forgot your password

In the event you forget your password, you can reset it by clicking on "Forgot Password" under the login section on the homepage. You will type in your email for username and click enter. A new password will be sent to your email.

Cannot Login

Call your student's school building's main office for support.
