 - Credential

Reynoldsburg Career Pathways

Q: What is a pathway?

A: A purposeful sequence of **courses** and **experiences** with a career focus, leading to at least one of the following: credentials, certification, Associate's degree or Bachelor's degree/college credit.

Q1: Can students change a pathway focus in high school?

A: Yes, but it will potentially impact the desired outcome we have associated with that pathway (credential and/or certification).

Q2: If a student STARTS a pathway and then HIS OR HER PREFERENCE CHANGES, is that a problem?

A: No, this is not a problem. We would rather a student discover this now, without getting saddled with debt.
