Notes

- It is strongly recommended that schedulers work on a PC machine.
- The JRE for Windows and OS 9 (MRJ 2.2.5) is loaded on the Campus server and can be accessed inside the firewall.
- To access MRJ 2.2.5, append the link already sent with MRJ_2.2.5.smi.bin.
- The JRE for OS X comes standard with each update to the OS.
- The Safari and Internet Explorer browser is **not supported** on any Macintosh platform.
