Blue Cross Blue Shield of Michigan Custom Drug List

The Blue Cross Blue Shield of Michigan *Custom Drug List* is a useful reference and educational tool for prescribers, pharmacists and members.

We regularly update this list with medications approved by the U.S. Food and Drug Administration and reviewed by our Pharmacy and Therapeutics Committee. The list represents the clinical judgment of Michigan doctors, pharmacists and other experts in the diagnosis and treatment of disease and the promotion of health. The committee selects medications based on safety, clinical effectiveness and opportunity for savings.

This drug list is updated monthly. Refer to our [Drug List Updates](#) document for recent changes or updates that may not yet be reflected on our drug lists.

About this drug list

Use this list to find information about your drug coverage and medication options. It's divided by chapter into major drug classes or indications for use. Products approved for more than one use may be included in more than one chapter. Within each chapter, drugs are identified according to their tier placement. Refer to the ["Reading your drug list"](#) section for details.

We encourage doctors to prescribe preferred medications whenever possible. Blue Cross respects the judgment of dispensing pharmacists and expects them to contact the prescribing health care professional when a drug or dose may not be appropriate for a member. We also encourage pharmacists to contact the prescriber to suggest an alternative when a prescription is written for a nonpreferred or excluded drug.

Coverage and applicable out-of-pocket costs for drugs on this list are based on your drug plan. Not all drugs included in the list are covered by each member's plan. Drugs that aren't listed may not be covered.

Some medications excluded by your pharmacy benefits may be covered under your medical benefits. These are medications that are generally administered in a doctor's office under the supervision of appropriate health care personnel and aren't normally dispensed for self-administration.

Nonformulary drugs (Drugs that aren't covered)

Our goals are to provide you with safe, high-quality prescription drug therapies and keep your medical costs low. To accomplish this, we don't cover some high-cost drugs that have comparable therapeutic alternatives with similar effectiveness, quality and safety, but at a fraction of the cost. For the most recent list of drugs that aren't covered with suggested alternatives, refer to [Custom and Clinical Drug Lists - Alternatives for nonpreferred and nonformulary \(not covered\) drugs](#). If you have a question about a drug that isn't covered and doesn't appear on this list, call the Customer Service number on the back of your Blue Cross member ID card.

Several drugs and drug categories are excluded altogether from coverage under this drug list and are not shown. These include:

- Prescription drugs for which there is an over-the-counter equivalent in both strength and dosage form (unless considered preventive by the United States Preventive Services Task Force)
- Drugs used for experimental purposes
- Drugs prescribed for cosmetic purposes
- Products covered as a medical benefit (for example, injectable drugs and vaccines that are usually administered in a doctor's office)
 - Note: Most Blue Cross members can get multiple common vaccines at network retail pharmacies. Restrictions may apply.
- Compounded products, with some exceptions
- Replacement prescriptions resulting from loss, theft or mishandling
- Drugs not approved by the FDA

Preferred alternatives for nonpreferred and nonformulary (not covered) drugs

Refer to **Custom and Clinical Drug Lists - Alternatives for nonpreferred and nonformulary (not covered) drugs** for a list of suggested covered preferred alternatives for nonpreferred and nonformulary drugs that can be dispensed with lower out-of-pocket costs. Alternatives may represent a different drug class, contain different ingredients or may be available in strengths or dosage forms that differ from the prescribed branded products. When pharmacies fill prescriptions for preferred alternatives, the generic equivalents are dispensed, if available. Additional coverage requirements may apply for preferred alternatives, such as prior authorization.

Specialty drugs

For more information on specialty drugs, see the **Specialty Drug Program Pharmacy Benefit Member Guide**.

Specialty drugs are limited to a 30-day supply. Select specialty drugs are managed by the **15-Day Specialty Drug Limitation Program**. Drugs included on this list are limited to a 15-day supply for all fills. Members pay half their usual out-of-pocket cost for a 15-day supply. For more details, visit **bcbsm.com/pharmacy**.

Preventive drug coverage

Under the Affordable Care Act, also known as national health care reform, most health care plans must cover certain preventive services and prescription drugs with no out-of-pocket costs. These drugs will have a “PV1,” “PV2” or “PV3” listing in the “Notes” column of the drug list.

For a complete list of preventive drugs and coverage requirements, refer to our **Preventive Drug Coverage** list or visit **bcbsm.com/pharmacy**. For information specific to your prescription drug benefits, check your Blue Cross benefits-at-a-glance drug summary.

New generics

When a generic version of a brand-name drug becomes available, the generic version is generally added to the generic tier of the drug list. After the generic drug is added, the original brand-name version will move to a nonpreferred brand tier.

Generic drug substitution

Generic drug substitution occurs when a pharmacist dispenses a generic equivalent in place of the brand-name product. Generic substitution is required for most Blue Cross members. If both the generic and brand names are on the drug list, the drug is assigned to the tier that matches the available generic. Members are encouraged to receive the generic equivalent if available. Some Blue Cross members, depending on their plan, may be required to pay the difference between the cost of the brand-name drug and its generic equivalent, in addition to the applicable brand-name copay, if they opt to not fill their prescription with the generic equivalent.

Brand-for-generic substitution

Select brand-name drugs may be covered at a generic copay, and the generic drug will not be covered. These brand name drugs will be shown without the generic drug and will be listed with a generic copay.

Prescription coverage

For details about your prescription drug benefits, please call the Customer Service phone number on the back of your Blue Cross member ID card. If you have online access, log in to your account at **bcbsm.com** or the Blue Cross mobile app. You can also find general information about Blue Cross prescription drug coverage at **bcbsm.com/pharmacy**.

Vaccines

Select vaccines are covered at pharmacies without out-of-pocket costs for most members whose pharmacies participate with Blue Cross and are certified to administer vaccines.

Reading your drug list

This drug list gives you options so you and your doctor can decide your best course of treatment. In this drug list, brand-name medication names are shown in UPPERCASE (for example, CLOBEX). Generic medication names are shown in lowercase (for example, clobetasol).

Tier information

Using lower tier or preferred medications can help you lower your out-of-pocket cost. Note: If you have a high-deductible health plan, the tier cost levels will apply once you meet your deductible. For tiering information specific to your drug benefit, check your Blue Cross benefits-at-a-glance drug summary.

Select drugs in the generic, preferred brand or nonpreferred brand tiers may also be covered with no out-of-pocket costs when health care reform requirements are met. These drugs will have a “PV1,” PV2” or “PV3” listing in the “Notes” column of the drug list.

Drug Tiers	3-tier plan	5-tier plan	Closed benefit plan
Not covered	Nonformulary This tier includes nonformulary high-cost, FDA-approved, prescription-only drugs that have comparable therapeutic alternatives with similar effectiveness, quality and safety, but at a fraction of the cost. Nonformulary drugs are not covered.		
Covered \$0	No out-of-pocket cost This tier includes select products that are covered with no out-of-pocket costs.		
Preventive	No out-of-pocket cost This tier includes drugs that are covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements are not met, the drug is not covered.		
Generic	Generic – Lowest out-of-pocket cost This tier includes generic drugs. Members pay the lowest copay for generics, making them the most cost-effective option for treatment.		
Preferred brand	Preferred brand – Higher out-of-pocket cost This tier includes preferred brand-name drugs. These drugs are more expensive than generics, and members pay more for them.	Preferred brand – Higher out-of-pocket cost This tier includes nonspecialty, preferred brand-name drugs. These drugs are more expensive than generics, and members pay more for them.	Preferred brand – Higher out-of-pocket cost This tier includes preferred brand-name drugs. These drugs are more expensive than generics, and members pay more for them.
Nonpreferred brand	Nonpreferred brand – Highest out-of-pocket cost This tier includes brand-name drugs for which there are either generic alternatives or more cost-effective, preferred brand-name drugs available. Members pay more for these nonpreferred brand-name drugs.	Nonpreferred brand – Highest out-of-pocket cost This tier includes nonspecialty, brand-name drugs for which there's either a generic alternative or a more cost-effective, preferred brand-name drug available. Members pay more for these nonpreferred brand-name drugs.	Nonpreferred brand – Not covered

Nonpreferred specialty – Higher out-of-pocket cost This tier includes nonpreferred brand-name, specialty drugs that are used to treat difficult health conditions. Members pay more for nonpreferred specialty drugs because there are more cost-effective generic or preferred drugs available.	Nonpreferred brand – Not covered

Drug list information

In this drug list, some medications are noted with letters next to them to indicate which ones may have coverage requirements or limits. Your drug plan determines how these medications may be covered.

AL	Age limit – Age restrictions apply.
ABA	Authorized brand alternative – Approved brand medication marketed by either the brand company or another company without the brand name on its label. Authorized brand alternatives are drugs that are considered brand-name drugs and don't have generic equivalents. These drugs are the same as the brand-name drugs but are not true generic drugs. The respective brand out-of-pocket cost will apply for these medications. Some authorized brand alternatives may not be covered.
PA	Prior authorization – Your doctor is required to give more information to determine coverage.
PV1	Preventive 1 – Covered with no out-of-pocket cost when health care reform requirements are met. When health care reform requirements are not met, the drug is not covered.
PV2	Preventive 2 – Covered with no out-of-pocket cost when health care reform requirements are met. When health care reform requirements are not met, coverage and applicable out-of-pocket costs apply, based on the members' benefit design.
PV3	Preventive 3 – Covered with no out-of-pocket cost when health care reform requirements are met. When health care reform requirements are not met, coverage and applicable out-of-pocket costs apply, based on the members' benefit design. Additional coverage requirements may apply.
QL	Quantity limit – The quantity of medication dispensed at one time is limited.
SP	Specialty medication – Specialty medications treat complex health conditions and may require special handling or administration.
ST	Step therapy – Requires you try one or more preferred drugs before a higher-cost medication can be covered.
15DS	15-day supply – Limits the amount of certain specialty drugs to a 15-day supply to help reduce out-of-pocket costs and waste.

How to fill a prescription

The type of drug you take determines which pharmacy you may use.

How prior authorization, step therapy and quantity limits work

Prior authorization

Prior authorization may be necessary for coverage of certain medications. In these cases, the member must meet clinical criteria or additional information must be provided before coverage is approved. Clinical criteria are based on current medical information and approved by our Pharmacy and Therapeutics Committee.

Step therapy

Drugs subject to step therapy may require previous treatment with one or more preferred drugs before coverage is approved.

For a current list of drugs requiring prior authorization or step therapy, see the **Prior Authorization and Step Therapy Coverage Criteria** and refer to the column labeled *Blue Cross Custom Drug List*.

Quantity limits

For certain medications, Blue Cross limits the quantity that can be dispensed per fill. Blue Cross sets quantity limits based on clinical appropriateness and manufacturer-recommended dosing for select drugs.

For a current list of drugs that have limits on the quantity that can be dispensed per fill, please see the **Quantity Limit Program**, and refer to the column labeled *BCBSM Clinical, Custom, Closed Drug Lists*.

How to request authorization

Consult your prescription drug benefit packet for information on how to get prior authorization or request reviews for coverage of drugs that aren't included in your plan. You can also call the Customer Service number on the back of your Blue Cross member ID card for more information.

- **To request coverage of a drug:** Fill out the **Coverage Request Form online at bcbsm.com**.
- **Write to:**
Pharmacy Services — Mail Code 512C
Blue Cross Blue Shield of Michigan
600 E. Lafayette Blvd.
Detroit, MI 48226-2998

Doctors can request authorization for you. We notify the doctor of approved requests and process the claim accordingly. If a request isn't approved, we'll notify you and the doctor in writing. The notification includes the reason for the denial, an explanation of your appeal rights and the appeals process.

Doctors can request authorization one of four ways:

- **Electronic prior authorization:** Doctors can use their electronic health record or CoverMyMeds® to submit electronic prior authorization requests for commercial pharmacy members.
- **Call:** 1-800-437-3803
- **Fax:** 1-866-601-4425
- **Write:**
