# Marzano Focused Teacher Evaluation Model

*Standards-Based Classroom with Rigor*

## Standards-Based Planning

- Planning Standards-Based Lessons/Units
- Aligning Resources to Standard(s)
- Planning to Close the Achievement Gap Using Data

## Conditions for Learning

- Using Formative Assessment to Track Progress
- Providing Feedback and Celebrating Progress
- Organizing Students to Interact with Content
- Establishing and Acknowledging Adherence to Rules and Procedures
- Using Engagement Strategies
- Establishing and Maintaining Effective Relationships in a Student-Centered Classroom
- Communicating High Expectations for Each Student to Close the Achievement Gap

## Standards-Based Instruction

- Identifying Critical Content from the Standards
- Previewing New Content
- Helping Students Process New Content
- Using Questions to Help Students Elaborate on Content
- Reviewing Content
- Helping Students Practice Skills, Strategies, and Processes
- Helping Students Examine Similarities and Differences
- Helping Students Examine Their Reasoning
- Helping Students Revise Knowledge
- Helping Students Engage in Cognitively Complex Tasks

## Professional Responsibilities

- Adhering to School and District Policies and Procedures
- Maintaining Expertise in Content and Pedagogy
- Promoting Teacher Leadership and Collaboration

## DEFINITIONS OF EQUITY, ACCESS, AND SEL

### EQUITY AND ACCESS

Equity in education has two dimensions. The first is fairness, which basically means making sure that personal and social circumstances – for example gender, socio-economic status or ethnic origin – should not be an obstacle to achieving educational potential. The second is inclusion, in other words ensuring a basic minimum standard of education for all – for example that everyone should be able to read, write and do simple arithmetic. The two dimensions are closely intertwined: tackling school failure helps to overcome the effects of social deprivation which often causes school failure.

Source: Organisation for Economic Co-Operation and Development. (2008). *Ten steps to equity in education*.  
<https://www.oecd.org/education/school/39989494.pdf>

### SOCIAL EMOTIONAL LEARNING (SEL)

Social and emotional learning (SEL) is the process through which children and adults acquire and effectively apply the knowledge, attitudes, and skills necessary to understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions.

SEL is the process through which all young people and adults acquire and apply the knowledge, skills, and attitudes to develop healthy identities, manage emotions and achieve personal and collective goals, feel and show empathy for others, establish and maintain supportive relationships, and make responsible and caring decisions.

Source: Collaborative for Academic, Social, and Emotional Learning. (n.d.). *Fundamentals of SEL*. CASEL.  
<https://casel.org/fundamentals-of-sel/>

### SPECIAL EDUCATION IN EQUITY AND ACCESS

The U.S. Department of Education made available to the public final regulations under Part B of the Individuals with Disabilities Education Act (IDEA), aimed at promoting equity by targeting widespread disparities in the treatment of students of color with disabilities. The regulations address a number of issues related to significant disproportionality in the identification, placement, and discipline of students with disabilities based on race or ethnicity.

**Planning Standards-Based Lessons/Units**

**Focus Statement:** Using established content standards, the teacher plans rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.

**Desired Effect:** Teacher provides evidence of implementing lesson/unit plans aligned to grade level standard(s) using learning targets embedded in a performance scale.

**Planning Evidence** (Check all that apply)

- Plans exhibit a focus on the essential standards
- Plans include a scale that builds a progression of knowledge from simple to complex
- Plans identify learning targets aligned to the rigor of required standards
- Plans identify specific instructional strategies appropriate for the learning target
- Plans illustrate how learning will scaffold from an understanding of foundational content to application of information in authentic ways
- Lessons are planned with teachable chunks of content
- When appropriate, lessons/units are integrated with other content areas
- When appropriate, learning targets and unit plans include district scope and sequence
- Plans illustrate how equity is addressed in the classroom

**Planning Evidence – Equity, Access, SEL** (Check all that apply)

- When appropriate, plans illustrate how Individualized Education Plans (IEPs)/personal learning plans are addressed in the classroom
- When appropriate, plans illustrate how EL strategies are addressed in the classroom
- When appropriate, plans integrate cultural competencies and/or standards

**Example Implementation Evidence** (Check all that apply)

- Lesson plans align to grade level standard(s) with targets and use a performance scale
- Planned and completed student assignments/work demonstrate that lessons are aligned to grade level standards/targets at the appropriate taxonomy level
- Planned and completed student assignments/work require practice with complex text and its academic language
- Planned and completed student assignments/work demonstrate development of applicable mathematical practices
- Planned and completed student assignments/work demonstrate grounding in real-world application
- Artifacts demonstrate the teacher helps others by sharing evidence of planning and implementing lesson/unit plans aligned to grade level standards (e.g. PLC notes, emails, blogs, sample units, discussion group)

**Example Implementation Evidence – Equity, Access, SEL** (Check all that apply)

- Planned and completed student assignments/work demonstrate how equity has been addressed in the lesson/unit
- Planned and completed student assignments/work demonstrate how Individualized Education Plans (IEPs)/personal learning plans have been addressed in the lesson/unit
- Planned and completed student assignments/work demonstrate how EL strategies have been addressed in the lesson/unit
- Planned and completed student assignments/work indicate opportunities for students to insert content specific to their cultures

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Makes no attempt to plan rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.	Using established content standards, attempts to plan rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.	Using established content standards, plans rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.	Using established content standards, plans rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning <i>and</i> provides evidence of implementing lesson/unit plans aligned to grade level standard(s) using learning targets embedded in a performance scale.	Helps others by sharing evidence of implementing lesson/unit plans aligned to grade level standard(s) using learning targets embedded in a performance scale <i>and</i> the impacts on student learning.

**Aligning Resources to Standard(s)**

**Focus Statement:** Teacher plan includes traditional and/or digital resources for use in standards-based units and lessons.

**Desired Effect:** Teacher implements traditional and/or digital resources to support teaching standards-based units and lessons.

**Planning Evidence** (Check all that apply)

- Plans identify how to use traditional resources such as text books, manipulatives, primary source materials, etc. at the appropriate level of text complexity to implement the unit or lesson plan
- Plans integrate a variety of text types (structures)
- Plans incorporate nonfiction text
- Plans identify Standards for Mathematical Practice to be applied
- Plans identify how available technology will be used
  - Interactive whiteboards
  - Response systems
  - Voting technologies
  - One-to-one computers
  - Social networking sites
  - Blogs
  - Wikis
  - Discussion boards
- When appropriate, plans identify how to use human resources, such as a co-teacher, paraprofessional, one-on-one tutor, mentor, etc. to implement the unit or lesson plan

**Planning Evidence – Equity, Access, SEL** (Check all that apply)

- When appropriate, plans identify resources within the community that will be used to enhance students' understanding of the content (i.e. cultural and ethnic resources)

**Example Implementation Evidence** (Check all that apply)

- Traditional resources are appropriately aligned to grade level standards
  - Text books
  - Manipulatives
  - Primary source materials
- Digital resources are appropriately aligned to grade level standards
  - Interactive whiteboards
  - Response systems
  - Voting technologies
  - One-to-one computers
  - Social networking sites
  - Blogs
  - Wikis
  - Discussion boards
- Planned student assignments/work incorporate the use of traditional and/or digital resources, and facilitate learning of the standards
- Planned student assignments/work incorporate the use of a variety of text types (including structures and nonfiction) and resources at the appropriate level of text complexity
- Planned student assignments/work require reasoning and explaining, modeling and using tools, seeing structure and generalizing of mathematics
- Artifacts demonstrate the teacher helps others by sharing evidence of planning and implementing supporting resources aligned to grade level standards (e.g. PLC notes, emails, blogs, sample units, discussion group)

**Example Implementation Evidence – Equity, Access, SEL** (Check all that apply)

- Planned resources include those specific to students' culture

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Teacher plan does not include traditional and/or digital resources for use in standards-based units and lessons.	Teacher plan includes traditional and/or digital resources for use in standards-based units and lessons that do not support the lesson.	Teacher plan includes traditional and/or digital resources for use in standards-based units and lessons.	Teacher plan includes traditional and/or digital resources for use in standards-based units and lessons and provides evidence of implementing traditional and/or digital resources to support teaching standards-based units and lessons.	Helps others by sharing evidence of including and implementing traditional and/or digital resources to support teaching standards-based units and lessons.

**Planning to Close the Achievement Gap Using Data**

**Focus Statement:** Teacher uses data to identify and plan to meet the needs of each student in order to close the achievement gap.

**Desired Effect:** Teacher provides data showing that each student (including English learners [EL], exceptional education students, gifted and talented, socio-economic status, ethnicity) makes progress towards closing the achievement gap.

**Planning Evidence** (Check all that apply)

- Plans include a process for helping students track their individual progress on learning targets
- Plans include potential instructional adjustments that could be made based on student evidence/data
- Productive changes are made to lesson plans in response to formative assessment (monitoring)
- A coherent record-keeping system is developed and maintained on student learning

**Planning Evidence – Equity, Access, SEL** (Check all that apply)

- Plans specify accommodations and/or adaptations for individual EL or groups of students
- Plans specify accommodations and/or adaptations for individual or groups of students receiving special education according to the Individualized Education Plan (IEP)
- Plans take into consideration equity issues (i.e. family resources for assisting with homework and/or providing other resources required for class)
- Plans specify accommodations and/or adaptations for students who appear to have little support for schooling
- Plans cite the data and rationale used to identify and incorporate accommodations
- Plans take into consideration how to communicate with families with diverse needs (i.e. English is a second language, cultural considerations, deaf and hearing impaired, visually impaired, etc.)

**Example Implementation Evidence** (Check all that apply)

- Planned student assignments/work show students track their individual progress on learning targets
- Formative and summative measures indicate individual and class progress towards learning targets and modifications made as needed
- Information about student progress is regularly sent home
- Artifacts demonstrate the teacher helps others by sharing evidence of how to use data to plan and implement lessons/units that result in closing the achievement gap (e.g. PLC notes, emails, blogs, sample units, discussion group)

**Example Implementation Evidence – Equity, Access, SEL** (Check all that apply)

- Planned student assignments/work reflect accommodations and/or adaptations for individual or groups of students receiving special education according to the Individualized Education Plan (IEP) at the appropriate grade level targets
- Planned student assignments/work reflect accommodations and/or adaptations used for individual students or sub-groups (e.g. EL, gifted, etc.) at the appropriate grade level targets
- Planned student assignments/work reflect accommodations and/or adaptations for students who appear to have little support for schooling

<b>Not Using (0)</b>	<b>Beginning (1)</b>	<b>Developing (2)</b>	<b>Applying (3)</b>	<b>Innovating (4)</b>
Makes no attempt to use data to identify and plan to meet the needs of each student in order to close the achievement gap.	Attempts to use data to identify and plan to meet the needs of each student in order to close the achievement gap.	Uses data to identify and plan to meet the needs of each student in order to close the achievement gap.	Uses data to identify and plan to meet the needs of each student in order to close the achievement gap <i>and</i> provides evidence of data showing that each student (including English learners [EL], exceptional education students, gifted and talented, socio-economic status, ethnicity) makes progress towards closing the achievement gap.	Helps others by sharing evidence of using data showing that each student (including English learners [EL], exceptional education students, gifted and talented, socio-economic status, ethnicity) makes progress towards closing the achievement gap.

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses the progression of standards-based learning targets embedded within a performance scale to identify accurate critical content during a lesson or part of a lesson, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Uses the progression of standards-based learning targets embedded within a performance scale to identify accurate critical content during a lesson or part of a lesson.  The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

**Previewing New Content**

**Focus Statement:** Teacher engages students in previewing activities that require students to access prior knowledge as it relates to the new content.

**Desired Effect:** Evidence (formative data) demonstrates students make a link from what they know to what is about to be learned.

**Example Teacher Instructional Techniques** (Check all that apply)

- Facilitate identification of the basic relationship between prior ideas and new content (purpose for the new content)
- Use preview questions before instruction or a teacher-directed activity
- Use K-W-L strategy or variation
- Provide advanced organizer (e.g. outline, graphic organizer)
- Facilitate a student brainstorm
- Use anticipation guide or other pre-assessment activity
- Use motivational hook/launching activity (e.g. anecdote, short multimedia selection, simulation/demonstration, manipulatives)
- Use digital resources and/or other media to help students make linkages to new content
- Facilitate identification of previously seen mathematical patterns or structures

**Example Teacher Instructional Techniques - Equity, Access, SEL** (Check all that apply)

- Use cultural resources to facilitate students making a link from what they know to the new content

**Example Teacher Techniques for Monitoring for Learning** (Check all that apply)

- Use a Group Activity** to monitor that students can make a link from prior learning to the new content
- Use Student Work** (Recording and Representing) to monitor that students can make a link from prior learning to the new content
- Use Response Methods** to monitor that students can make a link from prior learning to the new content
- Use Questioning Sequences** to monitor that students can make a link from prior learning to the new content

**Example Student Evidence of Desired Effect** (Percent of students who demonstrate achievement of the desired effect that students can make a link from prior learning to the new content. Student evidence is obtained as the teacher uses a monitoring technique. Check all that apply.)

- Identify basic relationship between prior content and new content
- Explain linkages with prior knowledge in individual or group work
- Make predictions about new content
- Summarize the purpose for new content
- Explain how prior standards or learning targets link to the new content
- Explain linkages between mathematical patterns and structure from previous grades/lessons and current content

**Example Student Evidence of Desired Effect – Equity, Access, SEL**

N/A

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning** (Check all that apply)

- Reteach or use a new teacher technique
- Reorganize groups
- Utilize peer resources
- Modify the task
- Provide additional resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in previewing activities that require students to access prior knowledge as it relates to the new content, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Engages students in previewing activities that require students to access prior knowledge as it relates to the new content.  The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

**Helping Students Process New Content**

**Focus Statement:** Teacher systematically engages student groups in processing and generating conclusions about new content.

**Desired Effect:** Evidence (formative data) demonstrates students can summarize and generate conclusions about the new content during interactions with other students.

**Example Teacher Instructional Techniques** (Check all that apply)

- Break content into appropriate chunks
- Facilitate group members in summarizing and/or generating conclusions
- Facilitate recording and representing new knowledge
- Facilitate the conceptual understanding of critical concepts
- Facilitate quantitative and qualitative reasoning of key mathematical concepts
- Stop at strategic points to appropriately chunk content based on student evidence and feedback

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Employ formal group processing strategies
  - Jigsaw
  - Reciprocal teaching
  - Concept attainment
- Use informal strategies to engage group members in active processing
  - Predictions
  - Associations
  - Paraphrasing
  - Verbal summarizing
  - Questioning

**Example Teacher Techniques for Monitoring for Learning** (Check all that apply)

- Use a Group Activity** to monitor that students can summarize and generate conclusions about the content
- Use Student Work** (Recording and Representing) to monitor that students can summarize and generate conclusions about the content
- Use Response Methods** to monitor that students can summarize and generate conclusions about the content
- Use Questioning Sequences** to monitor that students can summarize and generate conclusions about the content

**Example Student Evidence of Desired Effect** (Percent of students who demonstrate achievement of the desired effect that students can summarize and generate conclusions about the content. Student evidence is obtained as the teacher uses a monitoring technique. Check all that apply.)

- Discuss and answer questions about the new content in groups
- Generate conclusions about the new content in group or written work
- Actively discuss the new content in groups
- Summarize or paraphrase the just learned content
- Record and represent new knowledge
- Make predictions about what they expect to learn next
- Summarize or draw conclusions from complex text and its academic language
- Use repeated reasoning and abstract, quantitative, or qualitative reasoning

**Example Student Evidence of Desired Effect – Equity, Access, SEL**

N/A

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning** (Check all that apply)

- Reteach or use a new teacher technique
- Reorganize groups
- Utilize peer resources
- Modify task to appropriate chunk of content
- Provide additional resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Systematically engages student groups in processing and generating conclusions about new content, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Systematically engages student groups in processing and generating conclusions about new content.  The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

**Using Questions to Help Students Elaborate on Content**

**Focus Statement:** Teacher uses a sequence of increasingly complex questions that require students to critically think about the content.

**Desired Effect:** Evidence (formative data) demonstrates students accurately elaborate on content.

**Example Teacher Instructional Techniques** (Check all that apply)

- Use a sequence of increasingly complex questions as it relates to the content (text) with appropriate wait time
- Ask detail questions
- Ask category questions
- Ask elaboration questions (i.e. inferences, predictions, projections, definitions, generalizations, etc.)
- Ask students to provide evidence (i.e. prior knowledge, textual evidence, etc.) for their elaborations
- Present situations or problems that involve students analyzing how one idea relates to ideas that were not explicitly taught
- Model the process of using evidence to support elaboration
- Model processes and proficiencies to support mathematical elaboration
- Model implementation of appropriate wait time when questioning

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

N/A

**Example Teacher Techniques for Monitoring for Learning** (Check all that apply)

- Use a Group Activity** to monitor that students accurately elaborate on content
- Use Student Work** (Recording and Representing) to monitor that students accurately elaborate on content
- Use Response Methods** to monitor that students accurately elaborate on content
- Use Questioning Sequences** to monitor that students accurately elaborate on content

**Example Student Evidence of Desired Effect** (Percent of students who demonstrate achievement of the desired effect that students accurately elaborate on content. Student evidence is obtained as the teacher uses a monitoring technique. Check all that apply.)

- Answer detail questions about the content
- Identify characteristics of content-related categories
- Make general elaborations about the content
- Provide evidence and support for elaborations
- Identify basic relationships between ideas and how one idea relates to another
- Artifacts/student work demonstrate students can make well-supported elaborative inferences
- Discussions demonstrate students can make well-supported elaborative inferences
- Discussions are grounded in evidence from text, both literary and informational
- Discussions and student work provide evidence of mathematical elaboration

**Example Student Evidence of Desired Effect – Equity, Access, SEL**

N/A

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning** (Check all that apply)

- Rephrase questions/scaffold questions
- Modify task
- Provide additional resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses a sequence of increasingly complex questions that require students to critically think about the content, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Uses a sequence of increasingly complex questions that require students to critically think about the content.  The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

<b>Reviewing Content</b>				
<b>Focus Statement:</b> Teacher engages students in brief review of content that highlights the cumulative nature of the content.				
<b>Desired Effect:</b> Evidence (formative data) demonstrates students know the previously taught critical content.				
<b>Example Teacher Instructional Techniques</b> (Check all that apply)				
<input type="checkbox"/> Begin lesson with a brief review of previously taught content <input type="checkbox"/> Use a scaffolding process to systematically show the cumulative nature of the content <input type="checkbox"/> Use specific strategies to help students identify basic relationships between ideas and consciously analyze how one idea relates to another <ul style="list-style-type: none"> <li>• Brief summary</li> <li>• Problem that must be solved using previous information</li> <li>• Questions that require a review of content</li> <li>• Demonstration</li> <li>• Brief practice test or exercise</li> <li>• Warm-up activity</li> </ul> <input type="checkbox"/> Ask students to demonstrate increased fluency and/or accuracy of previously taught processes

Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

**Helping Students Practice Skills, Strategies, and Processes**

**Focus Statement:** When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures.

**Desired Effect:** Evidence (formative data) demonstrates students develop automaticity with skills, strategies, or processes.

**Example Teacher Instructional Techniques** (Check all that apply)

- Model how to execute the skill, strategy, or process
- Model mathematical practices
- Model how to reason, problem solve, use tools, and generalize
- Engage students in massed and distributed practice activities that are appropriate to their current ability to execute a skill, strategy, or process
  - Guided practice if students cannot perform the skill, strategy, or process independently
  - Independent practice if students can perform the skill, strategy, or process independently
- Guide students to generate and manipulate mental models for skills, strategies, and processes
- Employ “worked examples” or exemplars
- Provide opportunity for practice immediately prior to assessing skills, strategies, and processes
- Provide opportunity for students to refine and shape knowledge by encountering a task or problem in a different context
- Provide opportunity for students to increase fluency and accuracy
- Provide opportunity for purposeful homework

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

N/A

**Example Teacher Techniques for Monitoring for Learning** (Check all that apply)

- Use a Group Activity** to monitor that students develop automaticity with skills, strategies, or processes
- Use Student Work** (Recording and Representing) to monitor that students develop automaticity with skills, strategies, or processes
- Use Response Methods** to monitor that students develop automaticity with skills, strategies, or processes
- Use Questioning Sequences** to monitor that students develop automaticity with skills, strategies, or processes

**Example Student Evidence of Desired Effect** (Percent of students who demonstrate achievement of the desired effect that students develop automaticity with skills, strategies, or processes. Student evidence is obtained as the teacher uses a monitoring technique. Check all that apply.)

- Artifacts (i.e. worksheets, written responses, formative data) show fluency and accuracy are increasing
- Explanation of mental models reveals understanding of the strategy or process
- Explain how the use of a problem-solving strategy increased fluency and/or accuracy

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Execute or perform the skill, strategy, or process with increased confidence
- Execute or perform the skill, strategy, or process with increased competence
- Use problem-solving strategies based on their purpose and unique characteristics
- Demonstrate deepening of knowledge and/or increasing accuracy through group interactions

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning** (Check all that apply)

- Reteach or use a new teacher technique
- Reorganize groups
- Utilize peer resources
- Modify task
- Provide additional resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures.  The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

**Helping Students Examine Similarities and Differences**

**Focus Statement:** When presenting content, the teacher helps students deepen their knowledge of the critical content by examining similarities and differences.

**Desired Effect:** Evidence (formative data) demonstrates student knowledge of critical content is deepened by examining similarities and differences.

**Example Teacher Instructional Techniques** (Check all that apply)

- Use comparison activities to examine similarities and differences
- Use classifying activities to examine similarities and differences
- Use analogy activities to examine similarities and differences
- Use metaphor activities to examine similarities and differences
- Use activities to identify basic relationships between ideas that deepen knowledge to examine similarities and differences
- Use activities to generate and manipulate mental images that deepen knowledge to examine similarities and differences
- Ask students to summarize what they have learned from the activity
- Ask students to linguistically and nonlinguistically represent similarities and differences
- Ask students to explain how the activity has added to their understanding
- Ask students to make conclusions after the examination of similarities and differences
- Ask students to look for and make use of mathematical structure to recognize similarities and differences
- Facilitate the use of digital and traditional resources to find credible and relevant information to support examination of similarities and differences

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Use culturally relevant activities to help students examine similarities and differences

**Example Teacher Techniques for Monitoring for Learning** (Check all that apply)

- Use a Group Activity** to monitor that student knowledge of content is deepened by examining similarities and differences
- Use Student Work** (Recording and Representing) to monitor that student knowledge of content is deepened by examining similarities and differences
- Use Response Methods** to monitor that student knowledge of content is deepened by examining similarities and differences
- Use Questioning Sequences** to monitor that student knowledge of content is deepened by examining similarities and differences

**Example Student Evidence of Desired Effect** (Percent of students who demonstrate achievement of the desired effect that student knowledge of content is deepened by examining similarities and differences. Student evidence is obtained as the teacher uses a monitoring technique. Check all that apply.)

- Comparison and classification artifacts indicate deeper understanding of content
- Analogy and/or metaphor artifacts indicate deeper understanding of content
- Response to questions indicate examining similarities and differences has deepened understanding of content
- Make conclusions after examining evidence about similarities and differences
- Present evidence to support their explanation of similarities and differences
- Artifacts/student work indicate students have used digital and traditional resources to support examination of similarities and differences

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Artifacts/student work examining similarities and differences involve culturally relevant content, when appropriate

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning** (Check all that apply)

- Reteach or use a new teacher technique
- Reorganize groups
- Utilize peer resources
- Modify task
- Provide additional resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing. Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

**Helping Students Examine Their Reasoning**

**Focus Statement:** Teacher helps students produce and defend a claim (assertion of truth or factual statement) by examining their own reasoning or the logic of presented information, processes, and procedures.

**Desired Effect:** Evidence (formative data) demonstrates students identify and articulate errors in logic or reasoning and/or provide clear support for a claim (assertion of truth or factual statement).

**Example Teacher Instructional Techniques** (Check all that apply)

- Model the process of making and supporting a claim
- Model constructing viable arguments and critiquing the mathematical reasoning of others
- Ask students to summarize new insights resulting from analysis of multiple texts/resources
- Analyze errors to identify more efficient ways to execute processes or procedures
- Facilitate use of resources at the appropriate level of text complexity to find credible and relevant information to support analysis of logic or reasoning

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Ask students to examine logic of their errors in procedural knowledge when problem solving
- Ask students to provide evidence (i.e. textual evidence) to support their claim and examine the evidence for errors in logic or reasoning
- Use specific strategies (e.g. faulty logic, attacks, weak reference, misinformation) to help students examine and analyze information for errors in content or their own reasoning
- Guide students to understand how their culture impacts their thinking
- Ask students to examine and analyze the strength of support presented for a claim in content or in their own reasoning
  - Statement of a clear claim
  - Evidence for the claim presented
  - Qualifiers presented showing exceptions to the claim
- Involve students in taking various perspectives by identifying the reasoning behind multiple perspectives
- Ask students to examine logic of a response (e.g. group talk, peer revisions, debates, inferences, etc.)

**Example Teacher Techniques for Monitoring for Learning** (Check all that apply)

- Use a Group Activity** to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim
- Use Student Work** (Recording and Representing) to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim
- Use Questioning Sequences** to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim

**Example Student Evidence of Desired Effect** (Percent of students who demonstrate achievement of the desired effect to identify and articulate errors in logic or reasoning and/or provide clear support for a claim. Student evidence is obtained as the teacher uses a monitoring technique. Check all that apply.)

- Analyze errors or informal fallacies (i.e. in individual thinking, text, processing, procedures)
- Explain the overall structure of an argument presented to support a claim
- Summarize new insights resulting from analysis
- Artifacts/student work indicate students can identify errors in reasoning or make and support a claim
- Artifacts/student work indicate students have used textual evidence to support their claim
- Mathematical arguments and critiques of reasoning are viable and valid
- Artifacts/student work indicate identification of common logical errors, how to support claims, use of resources, and/or how multiple ideas are related

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Articulate support for a claim and/or errors in reasoning within group interactions
- Explanations involve cultural content
- Artifacts/student work indicate students take various perspectives by identifying the reasoning behind multiple perspectives

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning** (Check all that apply)

- Reorganize groups
- Utilize peer resources
- Modify task
- Provide additional resources

**Helping Students Revise Knowledge**

**Focus Statement:** Teacher helps students revise previous knowledge by correcting errors and misconceptions as well as adding new information.

**Desired Effect:** Evidence (formative data) demonstrates students make additions, deletions, clarifications, or revisions to previous knowledge that deepen their understanding.

**Example Teacher Instructional Techniques** (Check all that apply)

- Engage groups or the entire class in an examination of how deeper understanding changed perceptions of previous content
- Guide students to identify alternative ways to execute procedures
- Guide students to use repeated reasoning and make generalizations about patterns seen in the content
- Prompt students to update previous entries in their notes or digital resources to correct errors after activities such as examining their reasoning or examining similarities and differences

**Example Teacher Instructional Technique – Equity, Access, SEL** (Check all that apply)

- Ask students to state or record how hard they tried
- Ask students to state or record what they might have done to enhance their learning
- Utilize reflection activities to cultivate a growth mindset
- Prompt students to summarize and defend how their understanding has changed
- Guide students in a reflection process

**Example Teacher Techniques for Monitoring for Learning** (Check all that apply)

- Use a Group Activity** to monitor that students deepen understanding by revising their knowledge
- Use Student Work** (Recording and Representing) to monitor that students deepen understanding by revising their knowledge
- Use Response Methods** to monitor that students deepen understanding by revising their knowledge
- Use Questioning Sequences** to monitor that students deepen understanding by revising their knowledge

**Example Student Evidence of Desired Effect** (Percent of students who demonstrate achievement of the desired effect that students deepen understanding by revising their knowledge. Student evidence is obtained as the teacher uses a monitoring technique. Check all that apply.)

- Explain what they are clear about and what they are confused about
- Corrections are made to written work (e.g. reports, essay, notes, position papers, graphic organizers)
- Groups make corrections and/or additions to information previously recorded about content
- Revisions demonstrate alternative ways to execute procedures
- Revisions demonstrate repeated reasoning and generalizations about patterns seen in the content

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Explain what they could have done to enhance their learning
- Actions and reflections display a growth mindset
- Explain previous errors or misconceptions about content
- Reflections show clarification in thinking or processing

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning** (Check all that apply)

- Reteach or use a new teacher technique
- Utilize peer resources
- Modify task
- Provide additional resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in revision of previous knowledge by correcting errors and misconceptions as well as adding new information, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Engages students in revision of previous knowledge by correcting errors and misconceptions as well as adding new information.  The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

**Helping Students Engage in Cognitively Complex Tasks**

**Focus Statement:** Teacher coaches and supports students in complex tasks that require experimenting with the use of their knowledge by generating and testing a proposition, a theory, and/or a hypothesis.

**Desired Effect:** Evidence (formative data) demonstrates students prove or disprove the proposition, theory, or hypothesis.

**Example Teacher Instructional Techniques** (Check all that apply)

- Based on the prior content and learning, model, coach, and support the process of generating and testing
  - A proposition
  - A proposed theory
  - A hypothesis
- Ask students to design how they will examine and analyze the strength of support for testing their proposition, theory, or hypothesis

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Provide prompt(s) for students to experiment with their own thinking
- Observe, coach, and support productive student struggle
- Coach students to persevere with the complex task
- Engage students with an explicit decision-making, problem-solving, experimental inquiry, or investigation task that requires them to
  - Generate conclusions
  - Identify common logical errors
  - Present and support propositions, theories, or hypotheses
  - Navigate digital and traditional resources

**Example Teacher Techniques for Monitoring for Learning** (Check all that apply)

- Use a Group Activity** to monitor that students prove or disprove the proposition, theory or hypothesis
- Use Student Work** (Recording and Representing) to monitor that students prove or disprove the proposition, theory, or hypothesis
- Use Questioning Sequences** to monitor that students prove or disprove the proposition, theory, or hypothesis

**Example Student Evidence of Desired Effect** (Percent of students who demonstrate achievement of the desired effect that students prove or disprove the proposition, theory, or hypothesis. Student evidence is obtained as the teacher uses a monitoring technique. Check all that apply.)

- Explain the proposition, theory, or hypothesis they are testing
- Present evidence to explain whether their proposition, theory, or hypothesis was confirmed or disconfirmed and support their explanation
- Justify the process used to support the proposition, theory, or hypothesis
- Artifacts/student work indicate that while engaged in generating and testing a proposition, proposed theory, or hypothesis, students can
  - Generate conclusions
  - Identify common logical errors
  - Present and support the proposition, theory, or hypothesis
  - Navigate digital and traditional resources
  - Identify how multiple ideas are related

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Precisely explain perseverance with the task with reasoning and conclusions

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning** (Check all that apply)

- Utilize different coaching/facilitation techniques
- Reorganize groups
- Utilize peer resources
- Modify task
- Provide additional resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Coaches and supports students in complex tasks that require experimenting with the use of their knowledge by generating and testing a proposition, a theory and/or a hypothesis, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Coaches and supports students in complex tasks that require experimenting with the use of their knowledge by generating and testing a proposition, a theory, and/or a hypothesis. Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

**Using Formative Assessment to Track Progress**

**Focus Statement:** Teacher uses formative assessment to facilitate tracking of student progress on one or more learning targets.

**Desired Effect:** Evidence (formative data) demonstrates students identify their current level of performance as it relates to standards-based learning targets embedded in the performance scale.

**Example Teacher Instructional Techniques** (Check all that apply)

- Facilitate individual conferences regarding use of data to track progress
- Use formative measures to chart individual and/or class progress towards learning targets using a performance scale

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Help students track their individual progress toward the learning target (i.e. charts, graphs, data notebooks, etc.)
- Ask students to explain their progress toward the learning target
- Ask students to provide evidence of their progress toward the learning target
- Use formative assessment that reflects awareness of cultural differences represented in the classroom

**Example Student Evidence of Desired Effect** (Percent of students that demonstrate achievement of the desired effect that students identify their current level of performance. Student evidence is obtained during group activities and/or student work. Check all that apply.)

- Systematically update their status on the learning targets using a chart, graph, or data notebook
- Individual conferences document that students provide artifacts and data regarding their progress toward learning targets

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Describe their status relative to learning targets using the scale (e.g. exit ticket, summary, etc.)
- Demonstrate autonomy in providing evidence of progress on learning targets
- Responses to formative assessment may involve cultural content

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect** (Check all that apply)

- Utilize peer resources
- Modify task
- Provide additional resources

<b>Not Using (0)</b>	<b>Beginning (1)</b>	<b>Developing (2)</b>	<b>Applying (3)</b>	<b>Innovating (4)</b>
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing. Uses formative assessment to facilitate tracking of student progress on one or more learning targets.  The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

**Providing Feedback and Celebrating Progress**

**Focus Statement:** Teacher provides feedback to students regarding their formative and summative progress as it relates to learning targets and/or unit goals.

**Desired Effect:** Evidence (formative data) demonstrates students continue learning and making progress towards learning targets as a result of receiving feedback.

**Example Teacher Instructional Techniques** (Check all that apply)

- Provide specific feedback to students regarding formative and/or summative data as it relates to learning targets
- Celebrate individual student progress when formative/summative data indicate gains in achieving learning targets
- Implement a systematic, ongoing process to provide feedback
- Use a variety of ways to celebrate progress toward learning targets (not general praise)
  - Show of hands
  - Certificate of success
  - Parent notification
  - Round of applause
  - Academic praise
  - Digital media

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Celebrate as groups make progress toward learning targets
- Ensure celebrations involve culturally relevant components
- Ask students to explain how they use feedback
- Ask students how celebrations encourage them to continue learning

**Example Student Evidence of Desired Effect** (Percent of students that demonstrate achievement of the desired effect that students continue learning and make progress towards learning targets. Student evidence is obtained during group activities and/or student work. Check all that apply.)

- Show signs of pride regarding development of mathematical practices
- Use feedback to revise or update work to help meet their learning target

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Show signs of pride regarding their accomplishments in the class (e.g. body language, work production, quality of work, etc.)
- Initiate celebration of individual success, group success, and that of the whole class
- Surveys indicate students want to continue making progress
- Actions and responses indicate the teacher is equitable in providing feedback and/or celebrating progress

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect** (Check all that apply)

- Utilize new methods to celebrate success
- Provide additional opportunities to give feedback

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Provides feedback to students regarding their formative and summative progress as it relates to learning targets and/or unit goals, but less than the majority of students are displaying the desired effect.	Provides feedback to students regarding their formative and summative progress as it relates to learning targets and/or unit goals.  The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

**Organizing Students to Interact with Content**

**Focus Statement:** Teacher organizes students into appropriate groups to facilitate the learning of content.

**Desired Effect:** Evidence (formative data) demonstrates students process content (i.e. new, going deeper, cognitively complex) as a result of group organization.

**Example Teacher Instructional Techniques** (Check all that apply)

- Establish routines for student grouping and interaction for the expressed purpose of processing content
- Provide guidance regarding group interactions and critiquing the reasoning of others
- Provide guidance on one or more cognitive skills appropriate for the lesson
- Utilize assignments or tasks at the appropriate taxonomy level of content
- Organize students into ad hoc groups during individual lessons (i.e. use techniques to ensure equity)
- Use various group processes and activities to reflect the taxonomy level of the learning targets

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Provide guidance on one or more conative skills
  - Becoming aware of the power of interpretations
  - Avoiding negative thinking
  - Taking various perspectives
  - Interacting responsibly
  - Handling controversy and conflict resolution

**Example Student Evidence of Desired Effect** (Percent of students that demonstrate achievement of the desired effect that students process content as a result of group organization. Student evidence is obtained during group activities and/or student work. Check all that apply.)

- Work within groups with an organized purpose
- Exhibit awareness of the power of interpretations
- Actively ask and answer questions about the content (i.e. assignments or tasks)
- Explain individual student and/or group thinking about the content

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Avoid negative thinking
- Take various perspectives
- Interact responsibly and respectfully critique the reasoning of others
- Appear to know how to handle controversy and conflict resolution
- Add their perspectives to discussions
- Generate clarifying questions about the content
- Take responsibility for the learning of peers

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect** (Check all that apply)

- Reorganize groups
- Utilize peer resources
- Modify task
- Provide additional resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Organizes students into appropriate groups to facilitate the processing of content, but less than the majority of students are displaying the desired effect.	Organizes students into appropriate groups to facilitate the processing of content.  The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

**Establishing and Acknowledging Adherence to Rules and Procedures**

**Focus Statement:** Teacher establishes classroom rules and procedures that facilitate students working cooperatively and acknowledge students who adhere to rules and procedures.

**Desired Effect:** Evidence (formative data) demonstrates students know and follow classroom rules and procedures (to facilitate learning) as a result of teacher acknowledgment.

**Example Teacher Instructional Techniques** (Check all that apply)

- Remind students of rules and procedures
- Ask students to restate or explain rules and procedures
- Provide cues or signals when a rule or procedure should be used
- Physically occupy all quadrants of the room
- Scan the entire room, making eye contact with each student
- Recognize potential sources of disruption and deal with them immediately
- Proactively address inflammatory situations
- Recognize and/or acknowledge students or groups who follow rules and procedures
- Organize physical layout of the classroom to facilitate work in groups and easy access to materials

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Involve students in designing classroom routines and procedures to develop a culturally responsive classroom
- Actively teach student self-regulation strategies
- Use classroom meetings to review and process rules and procedures to ensure equity
- Consistently exhibit “withitness” behaviors

**Example Student Evidence of Desired Effect** (Percent of students that demonstrate achievement of the desired effect that students know and follow classroom rules and procedures. Student evidence is obtained during group activities and/or student work. Check all that apply.)

- Follow clear routines during class
- Explain classroom rules and procedures
- Describe the classroom as an orderly and safe environment
- Recognize cues and signals by the teacher
- Recognize that the teacher is aware of their behavior
- Describe the teacher as “aware of what is going on” or “has eyes on the back of his/her head”
- Respond appropriately to teacher direction and/or guidance regarding rules and procedures
- Move purposefully about the classroom and efficiently access materials

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Self-regulate behavior while working individually
- Self-regulate behavior while working in groups
- Interact responsibly with teacher and other students
- Explain how the individuality of each student is honored in the classroom
- Describe the teacher as fair and responsive to individual students

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect** (Check all that apply)

- Modify rules and procedures
- Seek additional student input
- Reorganize physical layout of the classroom

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Establishes classroom rules and procedures that facilitate students working cooperatively and acknowledge students who adhere to rules and procedures, but less than the majority of students are displaying the desired effect.	Establishes classroom rules and procedures that facilitate students working cooperatively and acknowledge students who adhere to rules and procedures.  The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

**Using Engagement Strategies**

**Focus Statement:** Teacher uses engagement strategies to engage or re-engage students with the content.

**Desired Effect:** Evidence (formative data) demonstrates students engage or re-engage as a result of teacher action.

**Example Teacher Instructional Techniques** (Check all that apply)

- Take action or use specific strategies to re-engage students
- Use academic games
- Manage response rates
- Use physical movement
- Maintain a lively pace
- Use crisp transitions from one activity to another
- Demonstrate intensity and enthusiasm for the content
- Use friendly controversy
- Present unusual or intriguing information about the content

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Provide opportunities for students to talk about themselves as it relates to the content (i.e. incorporate cultural connections)

**Example Student Evidence of Desired Effect** (Percent of students that demonstrate achievement of the desired effect that students engage or re-engage as a result of teacher action. Student evidence is obtained during group activities and/or student work. Check all that apply.)

- Behaviors show awareness that the teacher is noticing students’ level of engagement
- Behaviors show the engagement strategy increases engagement
- Student-centered tasks and processes produce high levels of engagement
- Talk with groups or in response to questions is focused on critical content
- Engage in the critical content with enthusiasm
- Actions show students are motivated by the teacher
- Behaviors show students are inspired by the teacher
- Multiple students or the entire class respond to questions posed by the teacher
- Artifacts/student work indicate students are engaged in the critical content

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Self-regulate engagement and engagement of peers

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect** (Check all that apply)

- Vary engagement technique
- Reorganize groups
- Modify task
- Utilize peer resources
- Vary resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses engagement strategies to engage or re-engage students with the content, but less than the majority of students are displaying the desired effect.	Uses engagement strategies to engage or re-engage students with the content.  The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the students.

**Establishing and Maintaining Effective Relationships in a Student-Centered Classroom**

**Focus Statement:** Teacher behaviors foster a sense of classroom community by acknowledgement and respect for the diversity of each student.

**Desired Effect:** Evidence (student action) shows students feel valued and part of the classroom community.

**Example Teacher Instructional Techniques** (Check all that apply)

- Compliment students regarding academic and personal accomplishments
- When appropriate, use humor and/or playful dialogue with students
- Use nonverbal signals (e.g. smile, nod, “high five”, pat on shoulder, thumbs up, fist bump, silent applause, eye contact, etc.)
- Remain calm in response to inflammatory situations
- Interact with each student in the same calm and controlled fashion
- Remain objective and in control by not demonstrating personal offense at student misconduct

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Encourage students to share their thinking and perspectives
- Seek student input regarding classroom activities and culture
- Relate content-specific knowledge to personal aspects of students’ lives
- Discuss with students about topics in which they are interested
- Discuss equity and individual needs of students
- Use student input and feedback to maintain an academic focus on rigor
- Build student interests into lessons (i.e. incorporate cultural connections)
- Use students’ personal interests to highlight or reinforce conative skills (e.g. cultivating a growth mindset)
- Engage in conversations with students about events in their lives outside of school
- Celebrate students’ individual diversity, uniqueness, and cultural traditions

**Example Student Evidence of Desired Effect** (Percent of students that demonstrate achievement of the desired effect that their actions show they feel valued and part of the classroom community. Student evidence is obtained during group activities and/or student work. Check all that apply.)

- Contribute to a positive classroom community through interactions with peers

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Change behavior when the teacher demonstrates understanding of their interests and diverse backgrounds
- Demonstrate verbal and nonverbal behaviors that indicate they feel accepted by their teacher
- Respond positively to verbal interactions with the teacher
- Respond positively to nonverbal interactions with the teacher
- Readily share their perspectives and thinking with the teacher
- Describe their teacher as respectful and responsive to the diverse needs of each student
- Actions show students trust the teacher to advocate for them

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect** (Check all that apply)

- Seek additional input from students
- Seek additional resources for self and students
- Utilize peer resources

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Teacher behaviors foster a sense of classroom community by acknowledgement and respect for the diversity of each student, but less than the majority of students are displaying the desired effect.	Teacher behaviors foster a sense of classroom community by acknowledgement and respect for the diversity of each student.  The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

**Communicating High Expectations for Each Student to Close the Achievement Gap**

**Focus Statement:** Teacher exhibits behaviors that demonstrate high expectations for each student to achieve academic success.

**Desired Effect:** Evidence (student surveys, interviews, work) shows the teacher expects each student to perform at their highest level of academic success.

**Example Teacher Instructional Techniques** (Check all that apply)

- Ask each student to examine the sources of their evidence

**Example Teacher Instructional Techniques – Equity, Access, SEL** (Check all that apply)

- Use methods to ensure each student is held responsible for participation in classroom activities
- Chart questioning patterns to ensure each student is asked questions with the same frequency
- Track grouping patterns to ensure each student has the opportunity to work and interact with other students
- Does not allow negative or sarcastic comments about any student
- Identify students for whom expectations are different and the various ways in which these students have been treated differently
- Provide students with strategies to avoid negative thinking about one’s thoughts and actions
- Ask questions of each student at the same rate and frequency
- Ask complex questions of each student that require conclusions at the same rate and frequency
- Rephrase questions for each student when they provide an incorrect answer
- Probe each student to provide evidence of their conclusions
- Allow students who become frustrated during questioning to collect their thoughts and have an opportunity to answer at a later point in the lesson
- Probe each student to further explain their answers when they are incorrect
- Require perseverance and productive struggle in solving problems and overcoming obstacles

**Example Student Evidence of Desired Effect** (Percent of students that demonstrate achievement of the desired effect that their teacher expects each student to perform at their highest level of academic success. Student evidence is obtained during group activities and/or student work. Check all that apply.)

- Artifacts/student work show the teacher won’t “let you off the hook” or “won’t give up on you”

**Example Student Evidence of Desired Effect – Equity, Access, SEL** (Check all that apply)

- Treat each other with respect
- Actions show students avoid negative thinking about personal thoughts and actions
- Respond to difficult questions
- Take risks by offering incorrect or alternative answers
- Participate in classroom activities and discussions
- Artifacts/student work show the teacher holds each student to the same level of expectancy as others for drawing conclusions and providing sources of evidence
- Model teacher behaviors that show care and respect for each classmate
- Demonstrates perseverance and productive struggle in solving problems and overcoming obstacles

**Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect** (Check all that apply)

- Modify questioning techniques and patterns
- Reorganize seating patterns and groups
- Reflect on student interactions and change teacher behaviors

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Exhibits behaviors that demonstrate high expectations for each student to achieve academic success, but less than the majority of students are displaying the desired effect.	Exhibits behaviors that demonstrate high expectations for each student to achieve academic success.  The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

**Adhering to School/District Policies and Procedures**

**Focus Statement:** Teacher adheres to school and district policies and procedures.

**Desired Effect:** Teacher adheres to school and district rules and procedures.

**Example Teacher Evidence** (Check all that apply)

- Performs assigned duties
- Fulfills responsibilities in a timely manner
- Follows policies, regulations, and procedures (e.g. bullying, HR plans, sexual harassment, etc.)
- Maintains accurate records (e.g. student progress, attendance, parent conferences, etc.)
- Understands legal issues related to colleagues, students, and families (e.g. cultural, special needs, equal rights, etc.)
- Demonstrates personal integrity and ethics
- Uses social media appropriately

**Example Teacher Evidence – Equity, Access, SEL** (Check all that apply)

- Maintains confidentiality of colleagues, students, and families
- Advocates for equality for each student

<b>Not Using (0)</b>	<b>Beginning (1)</b>	<b>Developing (2)</b>	<b>Applying (3)</b>	<b>Innovating (4)</b>
Makes no attempt to adhere to school and district policies and procedures.	Inconsistently adheres to school and district policies and procedures.	Adheres to school and district policies and procedures.	Adheres to school and district policies and procedures <i>and</i> articulates how they adhere to school and district policies and procedures.	Helps others by sharing evidence of how to support school and district policies and procedures.

**Maintaining Expertise in Content and Pedagogy**

**Focus Statement:** Teacher continually deepens knowledge in content (subject area) and classroom instructional strategies (pedagogy).

**Desired Effect:** Teacher provides evidence of developing expertise in content area and classroom instructional strategies.

**Example Teacher Evidence** (Check all that apply)

- Participates in professional development opportunities
- Demonstrates content expertise and knowledge in the classroom
- Seeks mentorship from subject area experts
- Seeks mentorship from highly effective teachers
- Actively seeks help and input from appropriate school personnel to address issues that impact instruction
- Demonstrates a growth mindset and/or seeks feedback
- Implements a deliberate practice or professional growth plan
- Seeks innovative ways to improve student achievement
- Uses a reflection process for analysis of specific strengths and weaknesses of individual lessons and units
- Uses a reflection process for analysis of specific instructional strengths and weaknesses
- Uses formative and summative data to make instructional planning decisions
- Teacher observational data is correlated to student achievement data
- Identifies specific areas of strengths and weaknesses within instructional strategies or conditions for learning
- Keeps track of identified focus areas for improvement within instructional strategies or conditions for learning

**Example Teacher Evidence – Equity, Access, SEL** (Check all that apply)

- Gathers and keeps evidence of the effects of specific classroom strategies and behaviors on specific categories of students (i.e., different socio-economic groups, different ethnic groups)
- Explains the differential effects of specific classroom strategies on closing the achievement gap
- Seeks opportunities to develop deeper understanding of cultural responsiveness

<b>Not Using (0)</b>	<b>Beginning (1)</b>	<b>Developing (2)</b>	<b>Applying (3)</b>	<b>Innovating (4)</b>
Makes no attempt to deepen knowledge in content area and classroom instructional strategies.	Attempts to deepen knowledge in content area and classroom instructional strategies.	Continually deepens knowledge in content (subject area) and classroom instructional strategies (pedagogy).	Continually deepens knowledge in content and classroom instructional strategies <i>and</i> provides evidence of developing expertise in content area and classroom instructional strategies.	Helps others by sharing evidence of how to develop expertise in content area and classroom instructional strategies.

**Promoting Teacher Leadership and Collaboration**

**Focus Statement:** Teacher promotes teacher leadership and a culture of collaboration.

**Desired Effect:** Teacher provides evidence of teacher leadership and promoting a school-wide culture of professional learning.

**Example Teacher Evidence** (Check all that apply)

- Contributes and shares expertise and new ideas with colleagues to enhance student learning in formal and informal ways
- Serves as an appropriate role model (i.e. mentor, coach, presenter, researcher) regarding specific classroom strategies and behaviors
- Documents specific situations of mentoring other teachers
- Works cooperatively with appropriate school personnel to address issues that impact student learning
- Promotes positive conversations and interactions with teachers and colleagues
- Fosters collaborative partnerships with parents to enhance student success in a manner that demonstrates integrity, confidentiality, respect, flexibility, fairness, and trust
- Seeks a role and participates in Professional Learning Community meetings
- Serves as a student advocate in the classroom, school, and community
- Serves on school and district-level committees
- Works to achieve school and district improvement goals

**Example Teacher Evidence – Equity, Access, SEL** (Check all that apply)

- Accesses available expertise and resources to support students' learning needs
- Encourages parent involvement in classroom and school activities
- Demonstrates awareness and sensitivity to social, cultural, and diverse needs of families
- Uses multiple means and modalities to communicate with families
- Participates in school and community activities as appropriate to support students and families

<b>Not Using (0)</b>	<b>Beginning (1)</b>	<b>Developing (2)</b>	<b>Applying (3)</b>	<b>Innovating (4)</b>
Makes no attempt to promote teacher leadership and a culture of collaboration.	Attempts to promote teacher leadership and a culture of collaboration.	Promotes teacher leadership and a culture of collaboration.	Promotes teacher leadership and a culture of collaboration <i>and</i> provides evidence of promoting leadership as a teacher and promoting a school-wide culture of professional learning.	Helps others by sharing evidence of how to promote teacher leadership and a culture of collaboration.
