FULL TIME ONLINE ELEMENTARY PROGRAM

GRADES K-5 FULL-TIME ONLINE & BLENDED LEARNING

JIA K-5 Full-time Online (FTO) students complete the entirety of their coursework online, with the curriculum and instruction provided by JIA. Students enrolled in our FTO elementary program work from home with options for 2.5 days of on-campus opportunities. Please visit the following link to the program website: <https://rb.gy/ufc0zp>

HANDS-ON, TECHNOLOGY-BASED LEARNING

Each elementary student is provided an iPad or Chromebook, along with a mobile wifi unit, to access courses. All curriculum is developed by JIA teachers with all necessary books and offline materials provided.

PARTNERSHIP WITH STUDENTS, TEACHERS, & PARENTS

Teachers work in close partnership with parents to support each student and help them be successful. Students have a personalized weekly calendar with activities each school day to complete with academic support and accelerated learning provided both in-person and virtually. In addition to digital content and coursework, teachers offer daily live virtual sessions with students and parents.

Jenison International Academy (JIA) provides innovative online and blended learning opportunities to families who reside in the JPS community and the greater West Michigan area. Our mission is to provide an engaging, personalized learning experience, bringing the home, school, and world together.

FACE-TO-FACE OPPORTUNITIES

Optional on-campus enrichment programming is available 2.5 days per week through Elective Experiences, Core Enrichment, and JIA+ programming. Families may choose any or all of the on-campus options. Additionally, students may participate in JPS district activities, including performing arts, ACT (accelerated learning), and robotics.

- **Elective Experiences:** rotation of PE, Art, Music, & Cultural Arts
- **Core Enrichment:** Project-Based Learning (PBL) and hands-on core extensions to the core subjects
- **JIA+:** To wrap around Core Enrichment, JIA+ offers full-day on-campus opportunities in which students are engaged in STEM and PBL community projects.
