

SCHOOL PROFILE

ABOUT THE SCHOOL

JIA Elementary provides online and hybrid learning opportunities to the Jenison Public School community and the greater West Michigan region. With a student-centered focus, JIA offers opportunities beyond the traditional classroom to develop a community of learning. Students are provided with personalized learning experiences, delivering high-quality instruction with flexible options. From fully online to blended courses, JIA prepares students to be successful in our dynamic world.

JIA Elementary students in grades K - 5 have the option of completing the entirety of their coursework at home via an online classroom, with most students choosing to participate in optional in-person, hands-on experiences with their teachers and peers.

All curriculum is developed by JIA teachers with all necessary books, technology, and offline materials provided.

Teachers work in close partnership with parents to support each student and help them be successful. Students follow a personalized weekly calendar with assignments and activities to complete each school day. Academic support and accelerated learning are provided both in-person and virtually. In addition to digital content and coursework, teachers offer daily live virtual sessions with students and parents.

MISSION STATEMENT

JIA's mission is to provide an engaging, personalized learning experience, bringing the home, school, and world together. The core values of JIA revolve around always keeping the **student first** - ensuring **personalization** while cultivating a **supportive learning environment**, encouraging **innovation** through curiosity and a growth mindset, and promoting **excellence** with academic rigor and diverse opportunities.
