January 12, 2022

Due to major staffing shortages and decreasing student attendances, Wister Public Schools will transition to our virtual learning platform starting Thursday, January 13th. Teachers will send work home with students in lower grades, so please check their backpack. Teachers will also be in contact through their Remind programs if you need assistance.

Students will return to school on Tuesday, January 18th, since we were already out Monday, January 17th, for a Virtual Day.

- Child Nutrition has sent meals home for the remainder of the week.
- JH & HS extra-curricular activities will proceed as scheduled for now. (Make sure that you are connected to your coaches' Remind.)
- Kiamichi Technology Center students will still attend classes at the normal scheduled times (buses will run as usual).
- While out, we will provide a deep cleaning of all buildings, buses, and classrooms.

We understand that these decisions are difficult, creating challenges for our families and students. Please understand we are devoted to the education and opportunities of our students by staying in-person as long as we could. That being said, we truly care about the safety/health of our students, so this tough decision had to be made.

Thank you for your understanding.

Rachel Pugh

Superintendent
