Copyright

The District recognizes that federal law makes it illegal to duplicate copyrighted materials without authorization of the holder of the copyright, except for certain exempt purposes. Severe penalties may be imposed for unauthorized copying or use of audio, visual, or printed materials and computer software, unless the copying or use conforms to the “fair use” doctrine.

Under the “fair use” doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship, or research.

While the District encourages its staff to enrich learning programs by making proper use of supplementary materials, it is the responsibility of staff to abide by District copying procedures and obey requirements of law. Under no circumstances will it be necessary for staff to violate copyright requirements in order to properly perform their duties. The District cannot be responsible for any violations of the copyright law by its staff.

The display of dramatic performances, musical works, motion pictures, or television programming to students may only occur for educational purposes under the following standards:

- During onsite instruction
- When viewed in a classroom or designated place of instruction
- With a lawfully made copy or via an authorized account
- As a regular part of instruction and directly related to the curriculum

Employees should contact the administration with inquiries about accessing lawful copies of materials or accounts to access materials available via online platforms to ensure compliance with copyright laws.

Any staff member who is uncertain as to whether reproducing or using copyrighted material complies with District procedures or is permissible under the law should consult the Superintendent. The Superintendent will assist staff in obtaining proper authorization to copy or use protected materials, when such authorization is required.
