District-Provided Access to Electronic Information, Services, Equipment, and NetworksGeneral

The District makes Internet access and interconnected computer systems and equipment available to District students and faculty. The District provides equipment and electronic networks, including access to the Internet, as part of its instructional program and to promote educational excellence by facilitating resource sharing, innovation, and communication.

The District expects all students to take responsibility for appropriate and lawful use of this access, including good behavior on-line. The District may withdraw student access to its equipment, network, and to the Internet when any misuse occurs. District teachers and other staff will make reasonable efforts to supervise use of equipment, network, and Internet access; however, student cooperation is vital in exercising and promoting responsible use of this access.

Use of District equipment and electronic networks will be consistent with the curriculum adopted by the District, as well as with varied instructional needs, learning styles, abilities, and developmental levels of students, and will comply with selection criteria for instructional materials and library materials.
