

HEALTHY RESTART PLAN

Back to School Quick Start Guide for Parents and Students

2020-2021 School Year

Getting ready for school:

1. Before you come to school, check your temperature, assess any symptoms, and submit your online daily health assessment.
 - A. If you have a fever of 100.4 or higher, or a cough, shortness of breath, or loss of taste or smell, or if you have been in direct contact with someone who has COVID-19, stay home and contact your doctor.
2. Bring a water bottle to school, since the water fountains will be closed for regular use. Instead, you can use them to refill your water bottle.
3. On the bus, wear your face mask and sit no more than two to a seat.

When you get to school:

1. When you get to school, make sure you are wearing your face mask and stay 6' from others. Pick up your grab-and-go breakfast in the cafeteria, and head to your classroom. The first class begins at 7:40 a.m.
2. You will be assigned a locker in a lab or the hallway. The locker will be spaced out from other students.
3. During the school day and when changing classes, be sure to wear your face mask and practice social distancing. Wash your hands frequently or use hand sanitizer.
4. A boxed lunch will be delivered to you in your classroom, and you will eat there.
5. The school nurse will have a designated isolation area in the event that you become sick at school. Your parent will be contacted to pick you up immediately.

If you need extra support:

1. Intervention Specialists and Paraprofessionals will be available to assist special education students individually, either virtually or face-to-face.
2. Your school counselor is available to respond to any emotional, social, and academic concerns.
3. Non-emergency counseling sessions will be available by appointment. These can be done virtually or in person.

Around the building:

1. Surfaces will be cleaned frequently, particularly high touch areas like stair handrails, door handles, counters, desks, tables, chairs, restrooms, computers, books, etc.
2. The school nurse will provide training to all students and staff regarding COVID-19 control strategies.
3. Visitors will be prohibited in the JVS except for emergency situations or enrollment activities.
4. Field trips that involve students being near each other, navigating large crowds, increased interactions with strangers and unpredictable circumstances will not be permitted.
