To create a new account, click on the “Create A New Account” button.

You will be directed to a form for your account information. We recommend completing all fields; however, just fields in **bold** are required. Provide an **email address** you use regularly. **We recommend using your email address as your parent Login ID**; however, it may be anything of your choosing. The **Pin Code** field is where you create a 4-digit PIN code – this is crucial, should you need to verify your account when calling in for support. If you do not receive this email, please check your spam folder and whitelist our email address.
