

Week 5 (April 14-17th) Lesson Plans for Mrs. Tootle and Mrs. Petty:

Please email us with any questions:

toni.tootle@loganelm.org or jennifer.petty@loganelm.org

Math

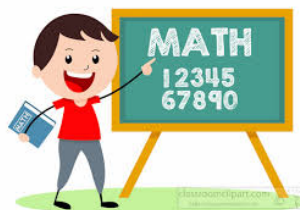

Please complete the following math book lessons this week:

- Lesson 10.11 ~ Decimal Fractions: Adding tenths and hundredths -
 - pages 388-389
- Lesson 10.12 ~ Decimal Fractions: Solving Word Problems -
 - pages 390-393

*If you need help with any of these lessons, you can watch teaching videos on Khan Academy. You only need to watch the videos if you need this support.

Extra optional math activities to choose from to keep you engaged:

- Play a double-digit multiplication game or division game using dice or cards with someone at home. (Like we did in class)
- Find and record the perimeter and area of at least 5 things inside or outside of your house.
- Measure and record at least 5 things in your house using metric measurements (solids or liquids)
- Practice multiplication facts for 5-10 minutes a day if you have not tested out of Xtramath.org
- Xtramath.org
- Redbird math online
- Extra Khan Academy lessons online

4th Grade Social Studies and Language Arts:

Please complete **one** of these time capsules. This will be part of your Language Arts and Social Studies for the next two weeks.

If you have internet:

- ★ Please complete the digital time capsule that I assigned through our Google Classroom page. With the digit version, you can even share it with friends to have them write notes on your friend page! Please share a copy with Mrs. Tootle and Mrs. Petty when you are finished.

No Internet? No Problem. . .

- ★ Complete the paper time capsule by printing out the attached copy. If you don't have a printer, please have your parents send me an email or a Remind message and I will have one mailed out to you.

- **Optional Activities:**

- Talk to an adult at home or a family member over the phone about an important event in history during their life.
- Practice being a good citizen by starting at home with your family. Help family members at home on a needed task.
 - (Ask mom and dad for some helpful ideas 😊)

4th Grade Reading

Remember to read for 20 minutes a day. This can be online or offline. Magazines, newspapers, or books you read with family. Lexia, Epic, and Scholastic all count for reading online as well as other programs.

4th Grade Science

There are a lot of beautiful changes outside right now! Take careful notes (on paper to submit later) of observations you are making. These may be drawings, notes, pictures, etc. Pay attention to the trees, flowers, grass, birds, bugs, temperature, and so much more!
