

## CHROMEBOOK INSURANCE UPDATE

- New for the 20-21 school year, parents/guardians will be offered an optional \$22.00 insurance to purchase for each school year per student. The district has partnered with an outside group (Worth Ave. Group) to provide the necessary repairs and insurance options. Parents/Guardians will pay the Worth Ave Group directly for their insurance coverage. A protection policy will be provided in the student portal for parents/guardians to review. This optional coverage will cover the following:
  - If a student breaks or damages the Chromebook beyond repair, the student will be given a replacement Chromebook at no additional charge. This coverage provides unlimited **accidental** repairs. **If it is found that the student purposely damaged or broke the device, insurance cannot be used during this incident.**
  - Students, parents/guardians have until **September 18th** of each school year to pay for the optional insurance. By not paying by **September 18th**, students, parents/guardians will lose the opportunity to purchase the insurance coverage and will be responsible for paying for all repairs/replacements.
  - Lost or damaged charger is not covered under the optional insurance and an additional cost will be incurred. Replacement chargers need to be purchased and provided by the Nordon Technology Department.

### Renewing Optional Insurance

- Students, parents/guardians will be offered an optional \$22.00 insurance to purchase for each school year per student.
- Students, parents/guardians have until **September 18th** of each school year to pay for the optional insurance. By not paying by **September 18th**, students, parents/guardians will lose the opportunity to purchase the insurance coverage and will be responsible for paying for all repairs/replacements.

**\*\*Only Nordon technology department employees should fix a damaged Chromebook. If someone other than a Nordon technology department employee attempts to fix a damaged Chromebook or alter the Chromebook in any manner, all warranties and optional insurance will become void and the student becomes responsible for all charges related to fixing/replacing the Chromebook.\*\***

**\*\*Please note – if you enroll in the Worth Avenue insurance coverage, Nordon Technology Department employees will process and facilitate the repair of your device. This includes the assignment of a loaner and all shipping processes.\*\*** The link to enroll will be active on 08/01/20
