Fairborn Parents,

Due to COVID-related personnel shortages within Fairborn Schools, bus transportation for ALL Fairborn residents has been halted through at least November 30th. This includes transportation to and from GCCC for Fairborn students. Until remedied, students without transportation may need to learn remotely if they cannot find alternative transportation. It is important that each student stay in contact with their teachers daily through Schoology.

GCCC is working with Fairborn Schools on a solution. Students without the accustomed bus transportation will not be counted absent as long as they are actively engaged through virtual learning. We are working diligently to provide a safe learning environment for all students but must defer to the safety issues related to local district transportation issues. We understand that the hands-on learning experience provided by the Career Center is vital to student success and professional achievement and would ask parents to help find alternative solutions to get their students to school during this difficult challenge.

We will forward more information as it becomes available. If you have any questions, please contact the Transportation Department at Fairborn City Schools (937) 878-1772 or reach out to Dr. Downing, the HS Director at the Career Center (937) 372-6941 ext. 1306.
