Calendar-Year Deductible for Prescription Drugs \$0

Prescription drug calendar year deductible must be satisfied before any Medicare Prescription Drug benefits are paid. Covered Medicare Prescription Drug expenses will accumulate toward the pharmacy deductible. The deductible does not apply to covered insulins and most Part D vaccines.

Initial Coverage Phase - The table below represents cost sharing after the deductible, if applicable, has been reached.

Pharmacy Disclaimers

Aetna Medicare Rx offered by SilverScript's retiree pharmacy coverage is an enhanced Part D Employer Group Waiver Plan that is offered as a single integrated product. The enhanced Part D plan consists of two components: basic Medicare Part D benefits and supplemental benefits. Basic Medicare Part D benefits are offered by Aetna Medicare Rx offered by SilverScript based on our contract with CMS. We receive monthly payments from CMS to pay for basic Part D benefits. Supplemental benefits are non-Medicare benefits that provide enhanced coverage beyond basic Part D. Supplemental benefits are paid for by plan sponsors or members and may include benefits for non-Part D drugs. Aetna reports claim information to CMS according to the source of applicable payment (Medicare Part D, plan sponsor or member).

The formulary and/or pharmacy network may change at any time. You will receive notice when necessary.

You must use network pharmacies to receive plan benefits except in limited, non-routine circumstances as defined in the EOC. In these situations, you are limited to a 30 day supply.

Pharmacy clinical programs such as precertification, step therapy and quantity limits may apply to your prescription drug coverage.

Specialty pharmacies fill high-cost specialty drugs that require special handling. Although specialty pharmacies may deliver covered medicines through the mail, they are not considered "mail-order pharmacies." Therefore, most specialty drugs are not available at the mail-order cost share.

The typical number of business days after the mail order pharmacy receives an order to receive your shipment is up to 10 days. Enrollees have the option to sign up for automated mail order delivery.

There are three general rules about drugs that Medicare drug plans will not cover under Part D. This plan cannot:

- Cover a drug that would be covered under Medicare Part A or Part B.
- Cover a drug purchased outside the United States and its territories.
- Generally cover drugs prescribed for "off label" use, (any use of the drug other than indicated on a drug's label as approved by the Food and Drug Administration) unless supported by criteria included in certain reference books like the American Hospital Formulary Service Drug Information, the DRUGDEX Information System and the USPDI or its successor.

Additionally, by law, the following categories of drugs are not normally covered by a Medicare prescription drug plan unless we offer enhanced drug coverage for which additional premium may be charged. These drugs are not considered Part D drugs and may be referred to as “exclusions” or “non-Part D drugs”. These drugs include:

- Drugs used for the treatment of weight loss, weight gain or anorexia
- Drugs used for cosmetic purposes or to promote hair growth
- Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations
- Outpatient drugs that the manufacturer seeks to require that associated tests or monitoring services be purchased exclusively from the manufacturer as a condition of sale
- Drugs used to promote fertility
- Drugs used to relieve the symptoms of cough and colds
- Non-prescription drugs, also called over-the-counter (OTC) drugs
- Drugs when used for the treatment of sexual or erectile dysfunction

Your plan includes supplemental coverage for some drugs not typically covered by a Medicare Part D plan. Refer to the "Non-Part D Supplemental Benefit" section in the chart above. Non-Part D drugs covered under the enhanced drug benefit can be purchased at the appropriate plan copay. Copayments and other costs for these prescription drugs will not apply toward the deductible, initial coverage limit or true out-of-pocket threshold. Some drugs may require prior authorization before they are covered under the plan.
