

Immunization Requirements

Below is a list of the **required** immunization students must have to meet the requirements for school attendance in the State of Ohio. There are also immunizations that are not required for school attendance but are **recommended** by several major medical organizations. These immunizations are also listed below.

ALL students must have a complete vaccination record on file at school within 15 days of attendance. If you have any questions regarding the requirements or your child's immunization record please contact your child's school nurse.

Vaccines can be obtained through your health care provider or the Lucas County Health Department. Information on their services can be viewed at: <http://www.lucascountyhealth.com/community-outreach/children-pregnancy/child-immunizations/>

REQUIRED IMMUNIZATIONS

<i>Vaccine</i>	<i>Requirement</i>
DTaP/DTP/Tdap/Td Diphtheria, tetanus, pertusis	Kindergarten 5 doses of DTaP, DTP, or DT, or any combination, if the fourth dose was administered prior to the 4 th birthday Grades 1-12 3-4 doses of DTaP, DTP, DT or Td or any combination. Grades 7-12 1 dose of Tdap or Td vaccine must be administered prior to entry.
Polio	K-6 A minimum of 3 doses. The final dose must have been given on or after the 4 th birthday, regardless of the number of previous doses; 4 doses if a combination of OPV and IPV was administered. Grades 7-12 4 doses if a combination of OPV and IPV was administered. 4 doses of all OPV or all IPV is required if the third dose of either vaccine was administered prior to the 4 th birthday.
MMR Measles, mumps, rubella	K-12 2 doses of MMR. Dose 1 must be administered on or after the first birthday. The second dose must be administered at least 28 days after dose 1.
Hep B Hepatitis B	K-12 3 doses of Hepatitis B. The second dose must be administered at least 28 days after the first dose. The third dose must be given at least 16 weeks after the first dose and at least 8 weeks after the second dose. The last dose in the series (third or fourth dose), must not be administered before age 24 weeks.
