

American Rescue Plan: Safe Return to In-person Instruction and Continuity of Services Plans

Logan Elm Local Schools provided daily in-person learning for most of the 2020-21 school year and expect to continue to do so in the 2021-22 school year. Data will be analyzed to determine students' academic needs and interventions will be provided accordingly. In the last two years, the district has increased student support services such as school counseling, nursing, and school social work to meet the needs of the whole child.

As the pandemic is a fluid situation, the Logan Elm Local School District will continue to monitor local data on COVID-19, follow state and local guidelines, and collaborate with the local health departments in order to make the best decisions for our students and staff. This plan will continually be reviewed with input from the community. All staff were offered an on-site option to be vaccinated. The district will review this plan with public input no less than every six months for the duration of the ARP ESSER grant period (i.e., through September 30, 2023), and revise appropriately. This includes decisions related to:

- Wearing of masks;
- Physical distancing, handwashing and respiratory etiquette;
- Contact tracing in combination with isolation and quarantine, in collaboration with the state, local, territorial or tribal health departments;
- Diagnostic and screening testing;
- Appropriate accommodations for children with disabilities with respect to the health and safety policies; and
- Continued cleaning and maintaining healthy facilities.

For more details on measures taken by the district and plans for the future, see our [Learning Recovery and Extended Learning Plan](#).
