

SAFETY PROTOCOLS AT CCSD

All students and staff must complete a digital health screening on the district's SchoolInfo App before entering a school or an office.

If you feel sick, stay home.

Contact your school if you have questions or concerns.

Wear a face mask correctly

All students, staff and visitors are required to wear a mask while at CCSD schools or offices.

Wash your hands

Hand sanitizers are placed throughout our buildings and teachers will schedule regular hand washing reminders.

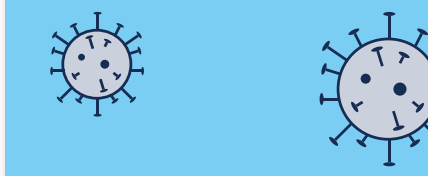

Clean and disinfect

Surfaces will be cleaned and disinfected after each class by teachers or custodians.

If a student or staff tests positive...

Parents whose child has been in contact with the positive individual will be notified directly. Students and staff that have been in direct contact with the positive individual will need to quarantine at home for 14 days.

Desks are spaced 6-feet apart. Students will eat lunch in the cafeteria spaced 6-feet apart.

District/School staff will direct the flow of traffic and stagger the release of classrooms.

Buildings are limited to 50% capacity. Students will attend in-person classes two days a week, decided by school administrators.

Buildings will be deep cleaned on Wednesdays. Buses will be disinfected before and after the day's regular run.

Increased ventilation made possible by adjusting air conditioning and installing special air filters.

25% of CCSD staff are tested at random every week.
