Public Participation: Mr. & Mrs. Bailey, grandparents of a student in Auto Body, addressed the Board with questions and concerns expressed in their letter sent to Logan-Hocking Schools and shared with Tri-County's Board of Education and administrators prior to the meeting.

Concerns of Mrs. Bailey:

1. On the school's website, the Auto Body Technology Program has twelve areas of study listed. To date, her granddaughter has only received instruction in seven of those areas.
2. Students are using personal cell phones in class when the student handbook states they are not permitted.
3. Questioned why the school was going to separate her granddaughter from her boyfriend, who is in the same class.
4. Asked why only girls were assigned a project of working on four pool chairs, instead of another project.
5. Her granddaughter has stated there is a lack of things to do in the lab.
6. Many of the items in the Auto Body lab are outdated. There is a great need to update it.

Responses and discussions were provided by Mrs. Altier, Mr. McGreevy, Mrs. Wiseman and members of the Board of Education. Mrs. Altier also stated that numerous steps have been made to improve their granddaughter's learning experience, but every student learns in their own way and may not achieve all competencies.

Mr. Nottke thanked Mr. & Mrs. Bailey for coming to the Board with their concerns. He also stated that the Board will review the issues presented.
