

New Year, New Building

It has been a great start to the 2023-24 school year for students and staff at
Logan Elm Elementary, Middle and High School

Thank you!

Just a little over a month ago, Brave Nation celebrated the opening of the Pk-12 building. Thousands of community members, students and staff came out to attend the ribbon cutting and tour the new building. We would like to thank the community for providing our students with this amazing educational facility and supporting our schools!

Students are enjoying the new accommodations.

Students are adjusting to their schedules and learning new routines. The new building's features help enhance day to day learning.

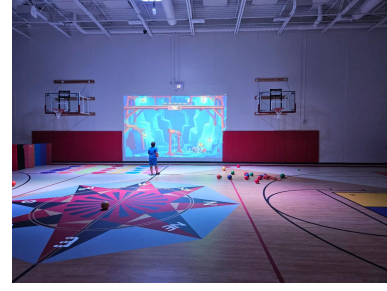

High school and middle school students cheer on the Braves during a Pep Rally in the Library.

FFA Students enjoy using their new classroom and made salsa as an early project.

Elementary students experience the features of the LU system, that is installed in the gym. The LU system is equipped with a high-definition laser projector, a motion-detecting camera, a powerful sound system, and fully automated multi-color lighting system.

Students in the industrial arts space

Elementary students in their new classroom

High school art class hard at work

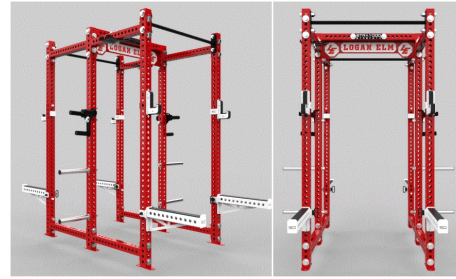

On to the next project.

Now that the PK-12 building is up and running, attention has turned to other updates to the campus.

What was previously the AG building is being renovated into a custom weight room for Logan Elm athletes. The building will also house the LE football team locker room along with additional boy's and girl's locker rooms, trainer's room, AD and coaches' offices.

The Athletic Boosters is making a \$100,000 investment to furnish this building for our student athletes. This project was not part of the bond issue and is funded by the district.

The ground where LEHS once stood is cleared of debris. This will be the home of a practice soccer field and middle school baseball diamond. Middle school softball will also get a new field, which will be placed to the west of the building. These fields are targeted to be ready by 2025.

Need to report an absence or tardy?

What do you think of the new building?

Students were asked share their favorite things about the new middle school and high school.

6th graders (L to R), Maggie Miller, Aby Grasha and Logan Caplinger said:

Maggie: "The lunchroom and the library."

Aby: "Having all the teachers together in one building."

Logan: "The bathrooms!"

High School students also shared their thoughts on the new building and school year:

Junior, **Dylan Neff** (left) said: "My favorite part about the new school year would be all of the new equipment, as well as, having air conditioning in all of the classrooms."

Sophomore, **Macy Greene** said: "I enjoy the new high school gym for volleyball practices and games and how it has AC."

Senior, **Sawyer White** said: "Definitely the new building! It is so unlike anything that I have ever experienced. It feels so fresh and new."

Mrs. Piacentini shared these thoughts as high school librarian: "This year has brought so many great things to an already outstanding district. The new school year has brought a new sense of community with the new building. The middle school and high school are separate, but function together, and teachers can collaborate easier. I have had the privilege of taking high school students over to the elementary school to welcome elementary students into school in the morning and some high school students have had the opportunity to read to our 4th grade classes. Not only do the elementary kids love it, but so do the high school students. It is so rewarding to be able to see our older students give back to our younger students. We are bonded together not only by who we are, but now we are bonded together by proximity. I will forever be grateful to our community for providing us one campus for the benefit of both our teachers and our students."

Thank You!

We appreciate your interest in the students and activities of all Logan Elm schools!
