

Back to School Plan

2021-2022 School Year

ST PAUL WESTLAKE
TIGERS

St. Paul Westlake

Christ-Centered • Compassionate • Cutting-Edge

Christian School 3-year-old through 8th Grade

Overview

- We respect there are many differing opinions regarding the procedures schools should take to mitigate the spread of COVID-19.
- We pray for good health for all of our community and encourage all of our families to do what they feel is best for their students.

Masks

- Masks are optional for St. Paul students
- Parents are encouraged to consult with their pediatrician regarding mask use for their student
- “Teasing” of a student wearing a mask, like any other form of insults or negative behavior, will not be tolerated and dealt with appropriately

Hand Sanitizing Program

- The hand sanitizing program, established last school year, will remain in effect for all students & staff.
- Upon entry to any room, and the school building, students and staff will sanitize their hands.

Improved Ventilation & Purification

- Our HVAC systems have been set to maximize the amount of fresh-air exchange
- Each classroom has a state-of-the-art air purifier
- Teachers are instructed to keep windows open as much as possible to increase fresh air levels in the classroom

Lunches

- Lunches will return to the lunchroom split by grade level
 - Pre3 - 1st Grade
 - 2nd – 5th Grade
 - 6th – 8th Grade

At-Home Health Screenings

- Last year we did a great job keeping sick children at home.
- Parents should do daily checks of students, looking for symptoms of COVID or other infectious disease.
- PLEASE KEEP SICK STUDENTS HOME

Vaccinations

- Vaccinations are not available for the large majority of our student population
- For families with students aged 12 or older, St. Paul encourages families to talk to their pediatrician regarding vaccination recommendations

Visitors to Campus

- Visitors to campus will be allowed, however the number of visitors on campus may be limited.
- We ask that visitors to campus have a specific educational need or purpose to be on site.
- As always, visitors must check in to the school office upon arrival.

Positive COVID Case - Student

- A student who is COVID-positive, should stay at home and quarantine for a period of no less than 10 days
- After 10 days, a student may return after improvement of symptoms

Positive COVID Case – Close Contact

- A student who is designated a “Close Contact” must quarantine.
 - Return 10 days after exposure
OR
 - Return 7 days after exposure with a negative PCR or Antigen test

Constant Review / Revision

- St. Paul administration and school board will continually monitor the situation in the community at large and within our school community.
- Any adjustments to COVID-related policies and procedures will be announced as needed throughout the school year.
