SB 29 STUDENT DATA PRIVACY NOTIFICATION

Dear Parent/Guardian;

Several laws that were recently passed are going into effect by the end of October which directly impact school systems. Senate Bill 29, Student Data Privacy, is designed to protect the privacy of student data while ensuring transparency and accountability in how that data is monitored, assessed and used.

Please be aware that the District uses Securly WebFilter, Securly Teacher Classroom and Securly Aware for monitoring on all school-issued devices (as that term is defined by R.C. 3319.325). The monitoring will include the following features: location tracking and student interactions with school-issued devices (e.g., keystrokes and web-browsing activity). The District generally monitors these features for the noncommercial education purpose of instruction, technical support, and/or exam proctoring. Additionally, these features are generally monitored as a necessary precaution for preventing and/or responding to threats to life or safety.

Claymont City Schools is also required by SB 29 to send out a 72-hour notification if we are alerted to inappropriate content from web searches, created documents or emails that indicate self harm, harm to others, or bullying language. The notices will be sent through email starting on October 24, 2024.

Thank you for your continued support and understanding as we navigate the implementation of SB29.

Sincerely,

Brian Rentsch, Superintendent
