

Add Nordonia Email on iPhone

1. Press the Home button and select the Settings icon.

2. Tap Mail, then Add Account. Select Exchange.

3. Type in your email, which is in the format of "Firstname.Lastname@nordoniaschools.org". Type "neonetda" in Domain, type your username, which should be in the format of "nd_username" with username being the same login used to access your computer. Type in your password. Type "Nordia Email" in the description. Tap Next.

5. Leave all features set to ON. Tap Save.

6. In a few seconds, you will be prompted to set a passcode. This is required by Neonet as a security measure. Click on Continue.

7. Enter a passcode that is AT LEAST four digits long. You will have to remember this passcode as it will be needed to unlock your phone from now on. Enter a passcode and tap Continue. Enter your passcode a second time to confirm and your email will now be synced with your iPhone!
