

Droid Email Setup Information for Nordonia Hills

NOTE: These instructions are for Droid OS version 2.1. Other versions may be slightly different

- Go to **Email**, press the Menu button (at the bottom between Back and Home) and select **Add Account**
- Enter your email address (firstname.lastname@nordoniaschools.org) and your password and select **Manual Setup**

- Select **Exchange**

- Enter `\neonetda\nd_lastname` for your username, then enter your email password
 - Enter **mail.neonet.org** for the Server
 - Leave **Use secure connections (SSL)** checked and click **Next**
-
- Your phone will attempt to communicate with the email server and it should succeed. Once it connects, you should get checkboxes regarding whether or not to sync your Outlook Calendar and Contacts to your phone as well.
