No student shall represent their school in interschool athletics until there is on file with the superintendent or principal a statement signed by his parent or legal guardian and a signed physical certifying that he/she has passed an adequate physical examination within the past year, that in the opinion of the examining physician, physician's assistant, nurse practitioner or a certified/registered chiropractor, he/she is physically fit to participate in high school athletics; and that he/she has the consent of his/her parents or legal guardian to participate.

NOTE: It is strongly recommended by the Colorado Department of Health that individuals participating in athletic events have current tetanus boosters. Tetanus boosters are recommended every 10 years throughout life. Boosters are recommended at the time of injury if more than five years have elapsed since the last booster.

If significant intervening illnesses and/or injuries have occurred, a more complete physical examination should be conducted. The physical examination form must be signed by a practicing physician, physician assistant, or nurse practitioner.

If a student athlete has been injured in practice and/or competition, the nature of which required medical attention, the student athlete should not be permitted to return to practice and/or competition until he/she has received a release from a practicing physician.

NOTE: The CHSAA urges an adequate physical examination be given when a student athlete changes levels of competition, i.e. Little League to Middle School, Middle School to High School.

SAMPLE WARNING TO STUDENTS AND PARENTS

SERIOUS, CATASTROPHIC AND PERHAPS FATAL INJURY MAY RESULT FROM ATHLETIC PARTICIPATION.

By its very nature, competitive athletics may put students in situations in which SERIOUS, CATASTROPHIC and perhaps, FATAL ACCIDENTS may occur.

Many forms of athletic competition result in violent physical contact among players, the use of equipment which may result in accidents, strenuous physical exertion, and numerous other exposures to risk of injury.

Students and parents must assess the risks involved in such participation and make their choice to participate in spite of those risks. No amount of instruction, precaution, or supervision will totally eliminate all risk of injury. Just as driving an automobile involves choice of risk; athletic participation by high school students also may be inherently dangerous. The obligation of parents and students in making this choice to participate cannot be over-stated. There have been accidents resulting in death, paraplegia, quadriplegia, and other very serious permanent physical impairment as a result of athletic competition.

By granting permission for your student to participate in athletic competition, you, the parent or guardian, acknowledge that such risk exists.

By choosing to participate, you, the student, acknowledge that such risk exists.

Students will be instructed in proper techniques to be used in athletic competition and in the proper utilization of all equipment worn or used in practice and competition. Students must adhere to that instruction and utilization and must refrain from improper uses and techniques.

As previously stated, no amount of instruction, precaution, and supervision will totally eliminate all risk of serious, catastrophic, or even fatal injury.

If any of the foregoing is not completely understood, please contact your school principal for further information.

Instruction: Sign both copies, retain one for your records, and return the other to your school.

Message from the Board of Education

The Board of Education of Montrose County School District RE-IJ recognizes the great benefit to the District and its students, as well as to the community, of a comprehensive and vigorous athletic/activities program firmly focused upon the welfare of its participants. The short term and long term health and life experience advantages to athletic participants are well known. To that end, the Board wishes to make it clearly and widely known that full compliance with the adopted Athletic/Activities Training Code and Procedures Handbook is expected of all participants, their parents and guardians, and their coaches/sponsors. These rules and procedures have been established to insure that interscholastic participants in the Montrose County School District RE-IJ will be conducted primarily for the benefit of the students, that participation will be a worthwhile and healthy learning experience, and that individuals and teams will be well and fairly coached/sponsored. The Board considers the importance of individual and team win-loss records to be secondary to these objectives. Furthermore, the Board takes very seriously its' responsibility to the District's students and coaches/sponsors to insure that all policies, procedures and rules will be enforced fairly and uniformly. To that end, it holds the school district and building administrators, the coaches/sponsors, the students and the student's parents and guardians individually and collectively accountable for observing and enforcing those policies, procedures and rules. In return, it pledges, without reservation, to firmly support any and all reasonable efforts by school district personnel, students and parents and guardians to enforce those policies, procedures and rules.

Montrose School District RE-IJ Athletic/Activities Training Code

Philosophy

The athletic/activities code is built and can work only within each individual participant's sense of integrity and honesty, the unwavering support of parents in helping the participant to hold firmly to the code, and the consistency of coaches/sponsors and administrators in dealing with violations.

- This code should be viewed, first and foremost, as a promise to oneself. Further, it is a promise to one's teammates, parents and coaches/sponsors to abstain from all illegal activities, and to maintain a standard of excellence in academics and citizenship.

Students who choose to participate in athletics/activities also assume the responsibility of representing our schools and keeping their commitment to follow the athletic/activity code.

- Students, in order to participate to the best of their ability, must be physically fit.
- Students must maintain academic standards to establish their privilege to participate.
- Students in extra-curricular activities are "looked up to" and receive public recognition. They have the responsibility of maintaining acceptable behavior standards in school and in the community.

Coaches/Sponsors will follow the athletic/activities policy handbook as established by the District. Violations of these policies will not be taken on hearsay or rumor; however, an investigation will be initiated by the head coach and/or athletic director when reliable information comes to their attention. A valid case for action would include eye-witness testimony, law enforcement records or an admission of guilt.

The Athletic/Activities Training Code shall be in force from the beginning of the participant's first sport season through the last official day of the participant's academic career. (7-8, 9-12) Violations shall be cumulative during that period. A Montrose County School District RE-IJ Athletic/Activities Training Code Contract must be signed by the student and his/her parent or guardian before the student will be considered a member of a team.

Citizenship Violations:

Any flagrant disregard of appropriate behavior that is counter to established school policies and/or governmental law will be considered a citizenship violation and will be dealt with accordingly. The appropriate school administrator of the student violator's school will take appropriate disciplinary action, ranging from school sanctions to temporary or permanent suspension from participation.

Violations: Substance Abuse.

- The use or possession of tobacco in any form
- The use or possession of alcohol
- The use or possession of illegal drugs or misuse of any form of legal drug or medication

Penalties:

The above behaviors or activities will be considered a violation of the Athletic/Activities Training Code and will result in disciplinary action as follows:

First Offense: The participant will be suspended immediately from the current sport season for a minimum of twenty percent (20%) of the allowable contests as established by the Colorado High School Activities Association (including playoffs) or according to the carry-over rule. If the participant is not currently involved in an activity, he/she will be suspended for twenty percent (20%) of the next season in which he/she is a bona fide team member.

Second Offense: The participant will be suspended immediately from the current sport season for a minimum of thirty percent (30%) of the allowable contests as established by the Colorado High School Activities Association (including playoffs) or according to the carry-over rule. If the participant is not currently involved in an activity, he/she will be suspended for thirty percent (30%) of the next season in which he/she is a bona fide team member. If the participant has not served any of the first violation suspension, then the participant will be suspended for fifty percent (50%) of the allowable contests of the next season in which he/she is a bona fide team member.

Third Offense: The participant will be suspended immediately from the current sport season for the remainder of that season and from fifty percent (50%) of the allowable contests from the next sports season in which he/she is a bona fide team member. If a participant has not served any of the first violation suspension or the second violation suspension, then the participant will be suspended from the entire next season in which he/she is a bona fide team member and for fifty percent (50%) of the allowable contests for the next season in which he/she is a bona fide team member.

Fourth Offense: The participant will be suspended for one calendar year from participation in all athletic activities. Upon completion of the calendar year, a student/athlete may file for reinstatement of his/her eligibility with the building administrative team. The building administrative team retains the right to deny this request for reinstatement, to approve the reinstatement with stipulations, or to approve reinstatement without stipulations.

*Stipulations must be agreed upon prior to reinstatement

*Stipulations must be adhered to by the athlete or eligibility will be revoked immediately

CARRY OVER RULE: A suspension will be carried over and enforced, on a percentage basis unless otherwise stipulated, into the athlete's next sport season if the suspension has not been completed. (The next sport season being the next sport the athlete participates in and is a bona fide team member as determined by the building administrator.)

BONA FIDE - School administrators will determine if a student/athlete qualifies as a bona fide team member. i.e. incurring training code violations and going out for a sport one would not normally participate in order to serve suspension time.

Incidents that warrant education on anger management, drug, alcohol, and/or tobacco use must be completed before returning from the first, second and third offenses and must be approved by a school administrator.

Due Process

- A thorough investigation of a suspected violation will be conducted before action is taken.
- The school building administrator will arrange for a conference with the head coach/sponsor and the student and will notify the student's parents or guardian of that conference. (NOTE: If the conference with the student is to be one involving questioning of the student, the student has the right to have an adult present.)
- The administrator will determine if a violation has occurred, and if so, will take the indicated disciplinary action.
- After a decision has been reached, the parents or guardian, the student, the coach/sponsor and the central office will be informed of the decision, in writing. The parent or guardian, or the student may appeal the school level decision to the principal, if the principal has not been involved in the original action.
- An appeal may be made to the superintendent of schools and if the disagreement is not resolved by the superintendent, an appeal can be directed to the School Board in executive session.
