

## The short version of the Charlotte Valley Re-opening Plan

1. All NYDOH, CDC, NYSED and common sense protocols and guidelines have been established and will be followed.
2. Face wearing, social distancing, and handwashing rules are in effect until further notice by order of the Governor.
3. CVCS will open using the **in-school** model. Those with medical fragile conditions or reside with those with medically fragile conditions as outlined by the DOH must obtain a Doctor's note and will be placed in our on-line learning model until the Governor returns us to normal operating procedures.
4. In the case that COVID cases reach the 9% limit per 100,000 as cited by the Governor and the DOH, The District will close and return to 100% remote learning.
5. Parents must screen their children every day with a temperature check and signs of COVID before sending their child(ren) to school.
6. Students will be temperature checked every morning at their specific entrance. Those who fail will be reassessed by the school nurse in private.
7. Cleaning and sanitizing will occur in the classroom as students move from class to class and at night as a matter of routine. All cleaning products meet DOH/CDC compliance.
8. Students must wash their hands after returning to the classroom.
9. Teachers, in the event of a full closure, will teach remotely from their classrooms.
10. All drills will occur as a matter of law.
11. All visitors will remain in the vestibule and only be allowed into the building by appointment. They will be subject to CVCS screening protocols.
