Delaware County portal to report at-home positive covid-19 tests

Positive home tests are now able to be reported to the Delaware County Public Health Services. The home test reporting portal can be accessed on both the Delaware County website at <https://www.delcony.us/coronavirus/#ReportTest> and on the Public Health website at <http://delawarecountypublichealth.com/>

The portal asks for basic demographic information and test kit information. Most home tests give results in about 15 minutes.

If you are positive isolate yourself. If you are infectious, you'll want to reduce the risk of passing it on to someone else. Positive individuals should let close contacts about their potential exposure risk.
