College Credit Plus Program

College Credit Steps to Take

This information is for those students interested in pursuing participation in the College Credit Plus program for the 2027-2028 school year. Below is a list of the next steps you should take in the application process for the program. **Students/parents are responsible for the entire application process; the school does not initiate this process for you.**

1) Begin to identify institutions you are interested in applying to (previous students have attended Cleveland State University, Cuyahoga Community College, Kent State University, or the Kent State University Twinsburg campus and the University of Akron--these are just examples for you).
2) Locate the college's College Credit Plus application (some are the same as the undergraduate application and typically online at the college's website under Admissions) and selection criteria.
3) Know the college deadline and submit your application to the college **before the application deadline** (this will differ by the college).
4) Submit the Letter of Intent, Student/Parent Acknowledgement, and Transcript Request forms to the High School Counseling Office **no later than March 25, 2027.**
5) Registering for the ACT or SAT exam is ***optional*** for CCP at this time. You can register if you choose to at www.actstudent.org/regist/ or www.sat.collegeboard.org/register. Registration deadlines and test dates can be found on each website.
6) Meet with your child's school counselor if you have any questions or reservations about participating in the program to gain additional insight.
