

Greetings Presidents!

Welcome back to what I can certain will be an inspiring, encouraging, and productive school year at Harding High School. At Harding High School we value every student and strive to personalize learning for our students. We offer multiple campuses, at Harding, Mary Ellen Withrow HS Academy, Tri Rivers, Marion Technical College and Ohio State Marion. We are proud to offer challenging coursework to meet the State of Ohio graduation requirements. Our Career Pathways, JROTC program, college courses, AP and PreAP, fine and performing arts, and personalized classes help meet the needs of all of our students.

At Harding we are committed to ensuring that our graduates are enrolled, enlisted, or employed and ready to inspire a community of achievement. As we support our students in the classroom, we also offer many opportunities for students to engage outside of the classroom. Our students participate in multiple seasons of athletics, band and orchestra, musical, e-sports, student leadership, art club, chess club, eco club, and more extracurricular activities. We support students in our after school program, expanded learning program, career technical student organizations, and community service.

Harding is a safe and welcoming environment for students, staff and the community we seek to inspire. We look forward to serving our students and families in the Marion community through open, reflective and approachable communication and engagement. We hope that you will attend Harding events to see the wonderful achievements of our students. Please feel free to contact Harding High School to meet with staff, teachers, counselors, and principals.

Honor Forever

Jen Musbach Wellman
