

Adult Career Center

# SUPPLY CHAIN AUTOMATION SERVICE TECHNICIAN

## Overview of Program

Our world is being transformed daily by automation. Learn the skills necessary to be prepared for this in-demand and evolving field. This program prepares you for entry-level employment as a service technician in a variety of business settings. As a service technician, you will ensure that automated systems are dependable, cost-effective, flexible, and safe. Learn to install, maintain, support, operate, and upgrade material handling equipment and systems. Program outcomes focus on safety, an introduction to welding and machining, equipment maintenance, equipment repair, and network repair. This is a Career Development program that is approved by the Commission of the Council on Occupational Education (COE).
