

Adult Career Center

WELDING/FABRICATION

Overview of Program

Come train for this in-demand field! This program begins with an introduction to electric arc welding by running beads on flat, horizontal surfaces. Increase skills with further training using on vertical and horizontal welds, gas tungsten arc welding (TIG), and gas metal arc welding (MIG) in all positions. Course includes training on safety fusion of metals, identification of electrodes, and equipment setup. With instructors' approval, students will take AWS qualification tests. Class size limited to 18 students. This is a Career Development program that is approved by the Commission of the Council on Occupational Education (COE).
