

ABOUT THE PURPLE STAR GENERALS

Supporting Our Military- Connected Students and Families

The Purple Star Program at Anthony Wayne Local Schools is part of the Ohio Purple Star Program which recognizes schools that demonstrate a commitment to supporting military-connected students and their families.

Each of our schools is a Purple Star designated building and offers age-appropriate programs for military-connected students.

A major focus of the program is supporting families through deployment. When a parent or loved one is deployed, students may experience changes and challenges that affect them at home and at school. The Purple Star Program helps provide stability, connection, and understanding during these times.

Through school-based support, resources, activities, and a caring network of staff and peers, Anthony Wayne works to make sure military families know they are not going through deployment alone.

The program also gives students opportunities to connect with others who understand their experiences while recognizing and honoring the sacrifices made by military families.
