Finishing Strong...

Each of the principals has highlighted the theme of "Finishing Strong" in their building newsletters and I'd like to echo that encouragement in this message. The end of the school year is a very specific mix of activity and emotion that is not found in other professions.

May begins with a fitting and well deserved affirmation of our gratitude and appreciation for all of our teachers, nurses, and staff. We thank them for their time, dedication, and service to the community. All of the notes, decorations, gifts and expressions of support that are received demonstrate the strong partnership between home and school. As the summer approaches and we wrap up this school year, I know our teachers will continue to finish strong!

While public perception is that teachers get summers "off", the reality is that we transition into a different schedule and type of work. It is true that most do not wake up each day and drive into work, but many teachers participate in our summer professional development, curriculum writing projects, Extended School Year, and Virtual Summer School programs.

For our students and families, there is a similar change in schedule, but frequently little reduction in the business of life. Many students participate in library and park district programs, camps and other enrichment activities, as well as filling their days with fun and play.

The challenge throughout the month of May is to maintain our focus on the work at hand and continue to dedicate ourselves to giving our best each day. This will help us to finish off our school year with the sustained effort and success demonstrated throughout the rest of the year and set us up well for the summer ahead.

Dr. Angelaccio

Upcoming Events

**2018-2019
Registration is
Open**

**Spring
Concerts
5/15 6th-8th
Pops Concert
5/22 6th-8th Orchestra Concert
5/24 4th-8th Chorus Concert**

**BPAC Night

Board of Education - Meeting Highlights May 9, 2018

Special Olympic Athletes show off their medals!

The Pledge of Allegiance was led this month by representatives of the District 23 Special Olympics team: Michael Krzywosz, Abraham Sanchez, Sarah Moeykens, and Cameron Dreyer, along with their coaches Abbey Lynch, Megan Akhteebo, Joy Goscinski-Jones, and Vicki Samiotakis.

Title I and Title II Grant Funding and Services

\$ Grant Funding

Dr. Samojedny provided an update to the Board regarding the amended Title I and Title II grants so that all funds may be used appropriately and responsibly in service to the needs of our students. The changes to the grants provide for additional technology in Anne Sullivan's Library, materials for Reading Intervention Programs at all three of the elementary buildings, an expanded lending library for students, and professional development activities.

District 23 has also completed and submitted a waiver to the Illinois State Board of Education to use these funds as a "School-wide" program due to the expanding needs of our community and inclusive nature of our programs. The Board approved the revised District 23 Title I Improvement plan and will review each school's plan at the meeting in June. On Tuesday, May 22 at 1:00pm, community members are invited to participate in our public review of the Grants as we begin our planning for next year.

District 23 Financial Matters

Assistant Superintendent, Mr. Micheal DeBartolo and Superintendent Dr. Angelaccio presented a recommendation that the Board consider seeking new revenue to support and sustain our current levels of programming and to fund capital improvements outlined in our 10 Year Facility plan.

- The Board approved the selection of financial advising firm Raymond James as consultants and advisors to provide guidance and options for consideration at upcoming meetings.
- The Board approved the continued agreement between Prospect Heights School District 23 and Arlington Heights School District 25 for Food Services.

Calendar Adoptions

The Board of Education modified the end of year calendar due to the use of one snow day (remember that storm in January?) and to align with the Illinois State requirements for 176 days of instruction. Assuming no further emergency days are required, the last day of school will be: Early Childhood - FRIDAY, June 1; 8th graders - WEDNESDAY June 6; and students in grades K-7 will be THURSDAY, June 7, 2018.

The Board also adopted a modified version of the 2018-19 calendar that clarified tentative last day of school and designated emergency days and the 2019-2020 calendar. These calendars can be found on the [District website](#).

NEXT REGULAR MEETING
WEDNESDAY, June 13, 2018 at 7:00 p.m.
Grotsky Administration Bldg.

We need your help...

District 23 is looking for a parent/community volunteer with Professional Photography experience to assist with a special project.

If you are interested and able to help, please contact Nancy Sorensen @ (847) 870-5554 or nsorensen@d23.org

Building Briefs

MacArthur Students Excel...

MacArthur students represented themselves and our community so well in a number of areas over the past few weeks. Our Vocal and Instrumental Music programs all competed in the IGSMA Sectional competition and earned SUPERIOR Ratings; the Middle School Band travelled to Champaign to participate in SUPER State; and on the stage, their production of Willy Wonka was a smash success!

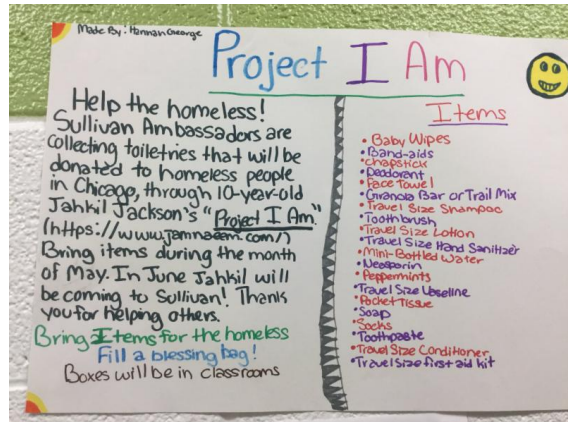

In athletics, our Track and Field team competed in conference and sectional meets with our students competing hard and earning many personal best scores. Also our students competed in Special Olympics Illinois and MacArthur hosted a Summit for Student Leaders and coordinators for Project Unify programs. So proud of all of our students for their time and dedication to becoming their best version of themselves and to support the needs of

others.

Project "I Am" Collections

Sullivan students are engaged in a service learning project developed by the Sullivan Ambassadors Club. They are collecting toiletries and personal care items to create kits to share with the homeless. So proud of our students' giving spirit and dedication to help others in need.

Combining Science, Technology and Art at Ross

3rd graders at Ross used their iPads to take pictures of clouds, identify their scientific type, then create an artistic representation. Students had fun learning, creating, and sharing their images through SeeSaw.

Earth Day Activities at Ike...

Students learned about recycling and responsibility in units of study centered around Earth and Arbor Days. A tree was planted thanks to the generous donation of the Prospect Heights Garden Club and a dedication ceremony was held to mark the occasion.
