Green Clean Schools

For nearly a decade, HSC's Green Clean Schools program has been changing the way schools clean, with great benefits for students, staff and the environment. This multi-faceted program helps schools clean better, smarter and safer.

GROWING GREEN PROJECT @ D23

Green Cleaning

Reduce Chemical Usage

Indoor Air Quality

Cleaning Products

Moisture Control

Recycling

Energy Management

Reduce Absenteeism

Personal Products

Sustainability

Minimize Health Risks

Good Hygiene

GROWING GREEN PROJECT OBJECTIVES

HS Goal 1

Provide Healthy Learning Environment

- Improve Indoor Air Quality
- Green Cleaning
- Minimize Health Risks
- Promote Good Hygiene
- Reduce Absenteeism
- Sustainability

HS Goal 2

Protect Students, Staff, and Community Members

- Custodial Staff Safety
- Increase Productivity
- Prevent Pollution
- Reduce Chemical Usage
- Stewardship

HS Goal 3

Extend Lifespan of Buildings and Equipment

- Energy Management
- Integrated Pest Management
- Moisture Control
- Preventive Maintenance
- Smart Materials Selection

GROWING GREEN PROJECT TEAM MEMBERS

Administration

- District office staff
- Principals

Staff

- Teachers and school nurses
- Custodians

Community Members

- Parents
- Advocates

Vendors

- Chemical manufacturers
- Distributors

GROWING GREEN PROJECT MILESTONES

Green Cleaning Initiative

Assess custodial cleaning program, chemical selection, equipment selection, maintenance PM procedures, training

Year 1

Year 2

Year 3

Sustainable Practices Initiative

Assess environmental programs, recycling, material purchases and selection

Healthy Classroom Initiative

Assess building and classroom environment, general hygiene, personal products, indoor air quality, education opportunities

GROWING GREEN PROJECT - YEAR 1

Green Cleaning Initiative
