Medications at school

- **All medications (including over the counter medications) given at school or during a school-sponsored field trip require a permission for medication form signed by the parent/guardian and their healthcare provider (Medical Doctor, Physician Assistant, or Nurse Practitioner).**
- We will not accept prescription medications that are not provided in their original box/container with an intact prescription label.
- We will not accept expired prescription or over the counter medications.
- Over the counter medications need to be unopened.
- Health Technicians are trained and delegated by the Registered Nurse to administer medications to students. This is done under the supervision of the Registered nurse.
