Presidents' Day

Presidents Day is on Monday, Feb. 20 this year. Presidents Day is celebrated on the third Monday of February every year. The date of Presidents Day changes every year in part because of the Uniform Holiday Bill signed in 1968 by President Lyndon B. Johnson. The Uniform Holiday Bill mandated that three holidays, including Presidents Day, occur on Mondays to prevent midweek shutdowns and add long weekends to the federal calendar.

Dr. P's Message

Hello everyone!

We are moving very fast this school year-hope Cupid doesn't distract you from your studies!

Please ensure that your child is maximizing every educational and social opportunity that WMASD offers. Our cyber students are eligible to participate in all WMASD activities and events. Building updates are posted in Schoology by club sponsors, coaches, and event coordinators. For example, Mrs. Bonacci, recently posted to high school students about the semi-formal dance coming up soon. The semi-formal is an excellent opportunity for all of our junior and senior class members to enjoy an excellent event in a fashionable setting. At TCA, we are always exploring ideas and activities to enrich our K-12 cyber educational experience. If you have any questions, you can always reach out via Schoology, email, or phone.

Dr. Brian P Plichta
Principal-Titan Cyber Academy

If you are considering cyber school, please contact me to learn more.

Groundhog Day, February 2

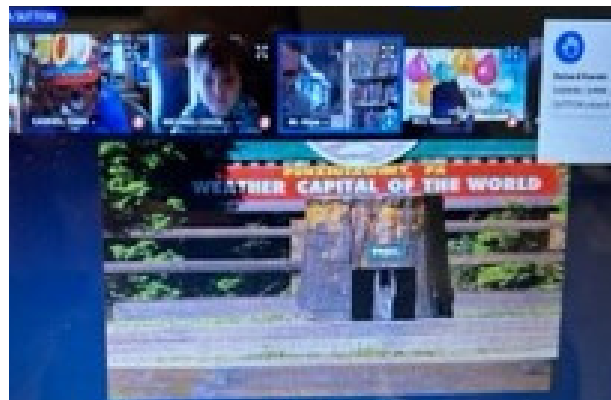

Groundhog Day is a popular North American tradition observed in the United States and Canada on February 2. It derives from the Pennsylvania Dutch superstition that if a groundhog emerges from its burrows on this day and sees its shadow due to clear weather, it will retreat to its den and winter will go on for six more weeks; if it does not see its shadow because of cloudiness, spring will arrive early.

Our very own Mr. Klipa, decided to travel to Gobbler's Knob in Punxsutawney, PA, home of Punxsutawney Phil, the groundhog who makes the annual winter prediction. Mr. Klipa broadcasted live from the Punxsutawney Library, where Phil lives throughout the year. On our live broadcast, he interviewed, , to tell our cyber students all about the legend of Phil, and important details of weather and local history, and geography. Our students were able to meet Phil online and ask questions virtually.
