TRAINING SERIES

Join us for this **LIVE**
virtual training series!

TRAINING DESCRIPTION

The program is designed for parent and professional teams to learn alongside one another and focus on skills that strengthen parents' ability to advocate for their children in a variety of settings. Participants will enhance their leadership skills and be ready to take on new higher-level roles in the community.

Parents and professionals will select their own partners for participation. This series follows a train-the-trainer model and each parent/professional team will be asked to commit to training 5 other parent/professional teams upon completion of the Parent Advocacy Training series.
