Mike DeWine, Governor

Jon Husted, Lt. Governor and Director

“There are many career pathways that help meet the diverse needs and backgrounds of Ohio’s students, giving them the momentum and direction necessary to live up to their God-given potential. The future of our state rests in the hands of these young Ohioans, and we need to bring awareness to the many, many training opportunities available right now at our high schools and career centers.”

Mike DeWine
Governor of Ohio

“As I’ve traveled the state, I’ve heard from students, parents, and teachers that they wish a resource like what we are announcing today existed that lays out the options available for kids so they can learn a skill and earn college credits without racking up student loan debt. Ohio’s on the rise. We are landing some of the largest economic development deals in history, and we need to have a prepared workforce. This resource presents options available for Ohio’s students so they can make the best decision for their future.”

Jon Husted
Lt. Governor of Ohio
Director, Governor’s Office of Workforce Transformation

Mason Moreck

Program:

Microelectronics Manufacturing Systems (MEMS)

Pathway:

College Credit Plus

School:

Avon High School and Lorain County Community College

Potential Career Opportunities with Median Salaries:

Electronics Engineering Technician (\$65,240)

Electrical and Instrumentation Technician (\$77,840)

College Credit Plus

Ohio's College Credit Plus (CCP) program helps students earn college and high school credits at the same time and for free! Credits they earn could count toward their two- and four-year college degree.

During the 2021-2022 school year, the College Credit Plus program saved Ohio families

\$165.1M
in tuition costs

College Credit Plus is not just for high school students! In the 2021-2022 school year

572

7th and 8th grade Ohio students were enrolled in CCP, earning college credit.

DID YOU KNOW?

The average annual median salary for a public university graduate in Ohio is **\$38,981**. The average loan debt of an Ohio public university graduate is **\$27,400**. To pay off this student debt, students will make payments from anywhere between **10-25 years**.

Many students who attend Career Technical Centers, use College Credit Plus, or are in pre-apprenticeship programs earn **\$38,981** or more as their starting salary — without the burden of student loan debt!

Let's Talk **Finances**

Career pathways can help Ohio's students graduate from college sooner and at a lower cost or can prepare them to enter the workforce immediately upon graduation.

WITHOUT STUDENT LOANS

\$38,981
salary

*Skip the student loan debt and save about **\$3,783** per year!*

WITH STUDENT LOANS

\$38,981
salary

\$3,783
typical annual student loan payments

\$35,198
salary remaining after loan payments

Tips & Resources for Counselors & Teachers

For many students, they might not know what the businesses hiring in their own backyard do or what jobs are available in their community.

Help prepare students for the future by:

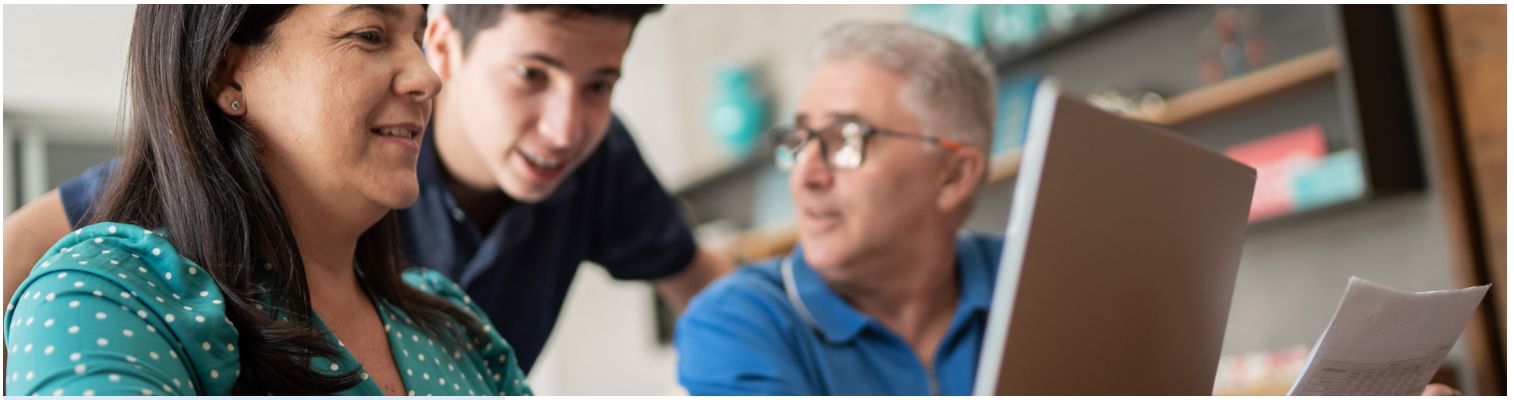

- Discussing career pathways with your students
- Showing your students the career pathways video
- Including career pathways information in parent newsletters
- Sharing career pathways information on your school's social media
- Inviting a business to the school to talk about their company and the jobs they offer
- Scheduling a field trip to a business to show students firsthand what a job in their community looks like
- Engaging your school's Business Advisory Council so businesses in your community can help you create curriculum that includes the skills they are hiring for.

HELPFUL LINKS

A career pathway offers an overview of the various career options along with education and training that can begin as early as grade 7.

Whether a student is interested in going to college or working right after high school, career pathways can be customized for their plan.

Parent Resources

It is never too early to discuss your child's future. If you aren't sure where to start, consider these conversation starters:

- What are some of your career interests?
- Do you have a career goal?
- Do you like learning with your hands?
- College isn't for everyone. Have you considered going to a career center?

Business Testimonial

"We do hire students that have credentials as well as a skilled background. So, we work with our local career tech schools to hire in students that have received credentials or training in maintenance, machining, welding, and production."

Midmark Corporation currently hires students from local career technical schools because of their experience and the credentials they have earned.

Midmark Corporation is a large manufacturing company in Versailles, Ohio, that is tapping into this powerful talent pipeline. You should too!

Resources for Businesses

Are you an Ohio business looking to strengthen your workforce? Build your talent pipeline now by partnering with schools in your area that can help train students with the skills your business needs. From pre-apprenticeships to industry-recognized credentials, high school students are preparing for the workforce now, so what are you waiting for?

Here's how you can start building your talent pipeline:

1. Connect with your local high school or career center and meet with students who are nearing graduation.
2. Start an internship or pre-apprenticeship program so students can experience what your business offers.
3. Join your local Business Advisory Council so you can help your area schools build curriculum around the skills your business needs.
4. Invite a school to tour your business and meet employees in the roles they could pursue.
